DEADLY FIGHT IN A STRIKERS' RIOT

Two Men Killed and Four Dangerously Hurt at Williamsburg.

TRUST'S BIG PLANT SCENE OF BATTLE

Police Repulse Rush of a Mob of Strikers With Their Pistols.

New York, July 28.—Two men were shot and killed and four were dangerously wounded, one a policeman, in a riot of strike sympathizers today at the plant of the American Sugar Refining company in Williamsburg.

A score of others were hurt. Crowds of sympathizers threw bricks at the strike breakers from house-tops, and when the non-union men started out with their trucks to deliver sugar a rush was made for the wagons.

The police on the trucks returned the fire of the crowd and two of the rioters were shot.

The dead men were Lithuanians and were not readily identified.

Police Struck By Bricks.

Several policemen were struck and painfully hurt by the bricks thrown from the nearby roofs. Four men suffering from serious gunshot wounds were taken to the eastern district hospital.

The entire neighborhood became involved in the disturbance and the reserves from nine precincts had all they could do to cope with the trouble. It appeared from the accounts of bystanders that the officers did not fire into the crowd until forced to do so by the ferocity of the attacks upon them, firing first into the air to intimidate the mob and when this firing failed, directed their shots at the men attacking them.

MR. BRYAN WILL NOT ABANDON OPTION STRUGGLE

Says a Start Has Been Made and Referendum Has Gained.

Lincoln, Neb., July 28.—William J. Bryan will continue the contest for county option and the initiative and referendum. In a statement issued today, he says:

"While the failure of the democratic convention to endorse county option was disappointing still the fight for county option in the democratic party has not been in vain. In the first place it has helped to secure a declaration in favor of the initiative and referendum in both parties and now that all parties have declared for it, there is no doubt of the necessary amendment being submitted at the next session of the legislature.

"The work now to be done is to secure county option candidates in every senatorial and representative district County option candidates should be nominated by all parties in each district and I have no doubt that this can be done in a great many districts."

OPTION FIGHT IN MINNESOTA.

Minneapolis, July 8.—The Minnesota state democratic convention was called to order today for the nomination of a full ticket of state officers and the adoption of a state platform.

The principal interest of the convention centers around the gubernatorial nomination and the fight on the county option plank. Congressman W. S. Hammond is temporary chairman and his speech in that capacity sounds the key-note of the fight which the party will wage this fall.

While there was some uncertainty as to the nominee for governor, the slate makers felt confident, up to the time of the assembling of the convention that John Lind, former governor of Minnesota, would be named to head the ticket.

County option promises to furnish the topic for debate and as one delegate expressed it, if the county option is adopted it "would be taken by their teeth."

Next to Lind, W. S. Hammond and Mayor J. C. Haynes, of Minneapolis, are considered as favorites for the nomination for governor.

SHIVELY NOT THERE.

Senator Fails to Attend Meeting of State Democratic Committee.

Indianapolis, July 28.—Members of the democratic state committee came to this city to attend a meeting of the committee this afternoon at the Denison hotel. It had been hoped that Senator Shively would attend the meeting of the committee, but he did not arrive.

TURNED WATER IN TROUGHS.

The water basins for horses in the new market place building were put to their first use this morning, when the water was turned on and the equines from the country took full possession of the basins. The basins are also to be used by any other animals, and there was a great deal of general satisfaction expressed today when the water was found running.

TROOPS POURING INTO COLUMBUS

Two Thousand Armed Men Ordered to Suppress Strike Violence.

NO STREET CARS RUN IN CAPITAL

Governor Harmon Will at Once Return to Give His Attention.

Columbus, Ohio, July 28.—While martial law has not officially been proclaimed in Columbus, the city is in charge of the military of the Ohio National Guard as a result of the call for troops by Mayor Marshall and Sheriff Sartain through Governor Harmon's secretary, Judge Long.

The call for troops came as the result of the continuous rioting throughout the city the past few days, following the strike of the employes of the Columbus Street Railway company, who demand recognition of their union, recently formed through the efforts of Organizer Fay, of Detroit.

Governor Hastening Home.

Governor Harmon is hastening here from his summer home in Michigan and the state arsenal is guarded by a detail from battery "D," of Columbus, armed with riot guns and eight inch field pistols. Orders have been sent to fifty of the best sharpshooters in the National Guard now at Camp Perry, to rush here.

The entire first brigade of 2,000 men, including the Second, Third and Sixth regiments, is either here or on the road. Brigadier General Wm. McMaken, of Toledo, is in charge.

Mayor Marshall has issued a formal proclamation placing General McMaken in full charge of the situation and has authorized him to make arrests or take any other action he thinks best. Not the slightest disorder has been reported today.

On the advice of General McMaken, no street cars will be allowed to run tonight and none were in operation all day.

No Cars Running.

Not a street car has been running in Columbus since midnight and thousands were compelled either to walk or to ride in any sort of vehicle to get to their places of business today.

The cars will not be started until the 2,000 troops of the National Guard arrive today to enforce order during the strike of the street car men.

The famous mounted troop, A, of Cleveland, is among the soldiers called out.

Battery "C," of Columbus, Captain Harold M. Bush commanding, is guarding the state arsenal and it will be on duty there as long as the trouble continues. The battery "C" boys are armed with repeating guns which shoot buckshot.

Adjutant General Weybrecht today ordered some 35 or 40 crack Ohio National Guard shooters who have been practicing at Camp Perry for the coming competitive shoot to come to Columbus at once. They will be detailed to watch buildings and see that no one fires on the troops.

Troops Are Arriving.

The headquarters of W. V. Kenny, of Toledo, who is in command of all the troops, are on the state house grounds. The Third regiment, Col. Herbert G. Catrow, of Miamisburg, commanding, was the first to reach the city. It arrived about 10 o'clock over the Pennsylvania.

The Second regiment, Col. Edward S. Bryant, of Bloomdale, commanding, which has headquarters at Lima, will come to Columbus for the most part over the Toledo and Ohio Central.

Announcement was made today that the troops would be stationed at the barns of the street car company, wherever needed. Camps of the troops will be at the car barns.

GERMANY WILL NOT BUTT INTO THE AFFAIR

Doc Madriz Appeals to the Kaiser Against the United States.

Berlin, July 28.—Germany has declined to entertain the request of President Madriz that this government use its friendly offices to put a stop to what is termed the interference of the United States in the affairs of Nicaragua. The Nicaraguan circular to the powers in which a protest against the attitude of Washington was coupled with a plea for foreign intervention was received by the foreign office on June 16 by cable from Managua.

As Nicaragua has no diplomatic representation at Berlin the request was made through Herr De Bruch, the German minister to Central America, resident at Guatemala City. The latter was informed of the receipt by the foreign office of the communication from President Madriz and directed to answer that the German government could do nothing in the matter.

In a statement issued today J. F. W. Pein, the Nicaraguan consul general at Berlin, cautions the public not to believe the reports of insurgent victories. These reports, he says, are invented at Bluefields, the headquarters of General Estrada, the leader of the insurrection.

BIG COUP IN RAIL WORLD GOING ON

New Transcontinental Consolidation is in Process of Making.

BIG SYNDICATE OF ENGLISH HEAD IT

Rock Island, Wabash and Lehigh Valley Make Main Part.

New York, July 28.—While Kuhn, Loeb & Co. made no official announcement today regarding the developments whereby the holdings of a syndicate in Rock Island, Lehigh Valley and Missouri Pacific stocks were taken over to prevent further serious liquidation, the company in connection with English interests, headed by Sir Ernest Cassell, has secured the largest single holding of Rock Island, both common and preferred.

Wabash a Part of It.

The syndicate is said to have been made up of Canadian and English operators with English connections headed by Dr. F. S. Pearson and had for its aim a new transcontinental group.

The block of Rock Island secured carries control of the property and is accompanied by the Pearson holdings in Lehigh Valley, Wabash and Missouri Pacific. Whether the transcontinental plan will be carried out by the new Rock Island controllers or whether the new interests will assert their power in altering present management, still depends on unsettled factors.

Biggest in England.

Sir Ernest Cassell, the chief foreign member of the new syndicate, represents one of the largest, if not the largest single financial interest of England, and it is stated on good authority that the new Rock Island interests took over the stock in question for purposes of permanent investment.

Pearson a Great Engineer.

The chief spirit in this, one of the boldest ventures in American financial history, is Dr. F. S. Pearson, one of the world's best known engineers. The men behind the project, from the manner in which they carried on their operations, contemplated nothing more nor less than a dominant interest in a chain of railroads extending from the Atlantic to the Pacific coast.

Dr. Pearson, who is said at once to have been a professor of engineering at Tufts college, attracted the attention of British and Canadian investors principally by the organization and operation of tramway companies in South America and Mexico. Investors and bankers derived remarkably handsome profits from these enterprises, so that on embarking in business in this country he had powerful financial backing.

The first big venture of Dr. Pearson and his associates in this country was made in the latter part of last year. It was in the stock and bonds of the Rock Island company.

Got on Rock Island Directory.

In the early part of this year Dr. Pearson and one of his associates, Percival Farquhar, said to be an Englishman, were elected directors of the Rock Island company. It was given out at the time that the syndicate represented by them had acquired about 20 per cent of the company's capital stock.

Dr. Pearson next made an examination of Lehigh Valley property also; recommended it to his companion and British friends and got their money into it, just as it was put into Rock Island. Lehigh Valley stock, which sold as low as 67 in the early part of last year, soared up to 121¼ as a result, in part, of these purchases.

Dr. Pearson and his associates went further until, as it became known today, they had bought into companies with a stock capitalization of fully $485,000,000 par value, and controlling 19,377 miles of road extending from the Atlantic to the Pacific.

These other operations were conducted secretly, and not until today did it come out that Dr. Pearson and his friends had made purchases of American railroad stocks on a scale

BRIDGES GO OUT IN WRATH OF THE DELUGE

Hancock County, Ky., Gets a Flood—Much Damage in Indiana.

Hawesville, Ky., July 28.—Nearly every bridge in Hancock county was carried away, many miles of public highway rendered impassable and the Louisville, Henderson and St. Louis railroad washed out in many places as a result of the twelve-hour rain that began last night and continued until daybreak today. Lightning destroyed the depot of the company at Lewisburg and a large chair factory at Tell City, Ind., across the Ohio river.

Many homes on streams throughout the country have been abandoned. Loss to live stock is reported heavy. The west end of Hawesville is under water. Wheat was completely destroyed and farmers are utterly discouraged. Corn is flat on the ground and meadows are ruined.

UP TO GRAND TRUNK TO KEEP TRAINS RUNNING

Governor Puts South Bend Situation on a New Footing.

South Bend, Ind., July 28.—The authorities, headed by Governor Thomas R. Marshall, forced the Grand Trunk railroad to resume the operation of its trains through South Bend on a regular schedule today.

Instructions to this effect were issued yesterday by Major General Will J. McKee, who has been in the city as a representative of the governor since the strike trouble began, and the operation of trains began this morning. The first trains were within a few minutes of schedule, but officials expect in a short time all will be running regularly.

The railroad has been slow in reestablishing its service, although its motive is not known.

Basing his action on reports received from representatives here, Governor Marshall yesterday telegraphed General McKee that he should order the immediate restoration of trains. The instructions were conveyed to the railroad company by General McKee at a conference with officials and its attorneys.

The strike situation has been generally quiet for the last two days and no further outbreak is expected, except possibly Saturday night or Sunday. Precautions will be taken to protect the railroad property at this time.

MICHIGAN TROOPS OUT.

Detroit, Mich., July 28.—Four companies of the first batallion, first infantry of the Michigan National Guard left here today under command of Major John S. Bersey to enforce order at Durand, where Grand Trunk strike disturbances have occurred during the last forty-eight hours.

Locally the strike situation is quiet. Both passenger and freight trains are moving in and out of Detroit today.

GREAT STRIKE MAY BE BROUGHT TO AN END

Good Prospect of Peace in Garment Workers' War in New York.

New York, July 28.—Prospect for an early settlement of the Garment Makers' strike which has involved upwards of fifty thousand workers and demoralized the women's clothing trade for several weeks, appeared bright today with the assembling of representatives of the conflicting interests for a conference.

The conferees comprise ten representatives from the Cloak, Suit and Skirt Manufacturers' association and a strikers' committee of equal size.

Louis D. Brandeis was asked to come from Boston to preside over the conference and readily consented, as it was largely through his efforts that the negotiations for a conference reached a successful conclusion.

Trust Official Arrested.

On the charge of having fired one of the shots that took effect upon the mob, H. A. Morgan, cashier of the refinery, who succeeded James F. Bendernagel in that position after the latter was tried for alleged underweighing frauds in connection with the big conspiracy, was arrested after the riot. Morgan denies the accusation.

The Misses Bertha Walda and Anna Lotz will leave Saturday for Cleveland and a lake trip to Buffalo and other eastern points.

NO WORD COMES FROM MONTROSE

Liner Supposed to Carry Crippen Silent to All Wireless Appeals.

CANADIAN COAST IN ONE BIG FLASH

Inspector Daw From Scotland Yard is About Ready to Land.

Montreal, July 28.—The White Star Line steamer Laurentic, westbound, passed Belle Isle at 5 o'clock this morning. She had aboard Inspector Daw, a Scotland Yard representative in the Crippen case.

The night off the coast of eastern Canada was full of wireless questions flashed seaward, but no reply came in revelation of the whereabouts of Dr. Hawley H. Crippen, of London, wanted in that city in connection with the disappearance of his actress wife, Belle Elmore, or of the doctor's former typist, Ethel Clara Leneve. Nor did any incoming word reveal the identity of the two passengers who, on July 20, went aboard the Canadian Pacific steamer Montrose at Antwerp as John Robinson and John Robinson, jr., and are reported under suspicion at Scotland Yard as possibly being Crippen and his typist.

Daw Was Silent.

Inspector Daw, of Scotland Yard, aboard the rapidly incoming Laurentic of the White Star Line, also was unheard from.

It was stated early today, however, that communication doubtless would be established with both steamers within a few hours.

Throughout the night the Montrose was supposed to be rapidly nearing a zone of wireless communication with the station at Belle Isle. Owing to the steamer's type of apparatus this would be within fifty miles of the coast.

At half a dozen other stations wireless operators never ceased their calls. Father Point, Quebec, was a spot of especial activity. There in an office of the Dominion police Chief Constable Guavreau awaited word from the Laurentic and Inspector Daw.

CHOLERA'S RAVAGES IN RUSSIA ARE FEARFUL

Sixteen Thousand Deaths Have Occurred Since Last May.

St. Petersburg, July 28.—The extent of the cholera epidemic is revealed in figures made public today by the government sanitary commission. The stricken region now includes forty-two provinces and territories of European Russia and since the outbreak of the disease last May there have been a total of 37,652 cases with 16,651 deaths.

Recently there has been a startling increase in the number of victims. During the week ending July 23 no less than 13,374 cases were reported and of these 5,979 terminated fatally.

Some time ago the scourge made its appearance in this city and for the past fortnight there has been a daily average of forty cases and twelve deaths in the capitol.

Yesterday there were fifty-four cases and fourteen deaths reported here. In the local hospitals there are 514 cholera suspects, including thirty-eight children.

Cashier H. R. Freeman, of the First National bank, has returned from a stay at Leland, Mich.

THREE DIE IN A CROSSING HORROR

Pennsylvania Train Hits an Automobile Near Etna Green.

DEATH COMES TO PLEASURE PARTY

Victims Were Lima and St. Mary's Folk Returning from Western Trip.

[Special to The Sentinel.]

Etna Green, Ind., Juy 28.—Two persons instantly killed and a third so badly injured that death ensued a few hours later is the frightful result of a railroad grade crossing horror here today when a Pennsylvania train crashed into an automobile carrying a party of Ohio pleasure-seekers returning from an auto tour of the west. The dead:

MELVILLE BROOKS, Lima, O.

MRS. MELVILLE BROOKS, Lima, O.

MRS. CHARLES THORING, St. Marys, O.

Mr. Brooks, who was picked up in a dying condition, expired here early this afternoon.

Charles Thoring, husband of one of the victims, who also occupied a seat in the ill-fated auto, in some manner escaped serious injuries.

Companions See Accident.

The distressing fatality occurred at the Ashcroft crossing, one mile west of this place, at 8:40 o'clock this morning, and the auto party was struck by an eastbound Pennsylvania freight engine which was running "light." The accident was witnessed by friends of the Thoring and the Brooks families who had accompanied them in another auto on the long journey and who were but a short distance away when the locomotive crashed into the Brooks car on the crossing.

The auto was eastbound and was struck with frightful force by the locomotive. The car was reduced to a mass of wreckage and hurled with its occupants a distance of fifty feet or more. Mrs. Brooks and Mrs. Thoring were lifeless when friends reached them, and physicians who were quickly summoned expressed the belief that Mr. Brooks could not survive his injuries.

The train which struck the auto consisted of but an engine and a caboose, in charge of Engineer Henry L. Foster and Conductor Clyde P. Freeman, both of Fort Wayne. No. 37, a westbound accommodation train, picked up the dead and wounded and transported them back to the station at Etna Green.

It is believed the occupants utterly failed to note the approach of the engine, for the country at that point is very level and there are no buildings nor trees to obstruct the view. The crossing is one that is but little used, and it is said the average travel over it is one pedestrian and four vehicles.

HAD BEEN TOURING WEST.

Victims of Accident Were Returning From Long Pleasure Trip.

Lima, O., July 28.—(Special.)—The victims of the distressing fatality at Etna Green, Ind., all of whom are well known in this city, left Lima something like a month ago for an extended pleasure tour of the west. They had traversed a wide section of country as far west as Colorado and were returning home, having notified friends of their expectation of reaching Lima today.

Two autos carried the party, which

QUARRELS WITH HIS FARM HAND AND KILLS HIM

Samuel A. Michaels, of Logansport, is Held for the Crime.

Logansport, Ind., July 28.—Samuel A. Michaels, living in North street this city, during an argument with Levi Clippenger, an employe on his farm, in Carroll county, just across the Cass county line, shot and killed him this morning. After the shooting Michaels fled in a buggy, but the authorities were notified and he was soon arrested. He was taken to the jail at Delphi.

Michaels has a wife and two daughters and the family is prominent in social circles.

HAUNTED BY FEAR OF PRISON AGAIN

Edgar H. Schrock Fires Bullet Into His Brain at Norfolk, Va.

FORMERLY LIVED IN FORT WAYNE

Local Acquaintances Loth to Believe Story of a Western Murder.

Norfolk, Va., July 28.—Fearing he had violated the conditions of a pardon on which he was liberated from a western prison several years ago, Edgar H. Shrock, 25 years old, killed himself here yesterday by firing a bullet from a revolver through his head. Shrock was engaged to marry Miss Elisabeth Butler, of this city, and he sent a letter to her telling why he committed suicide.

Miss Butler, while admitting that brooding over the fact that he might have violated the conditions of his pardon and fearing that he would meet a disgraceful death were the causes he assigned for taking his life, declined to state what crime her fiance had committed that caused him to be confined in a western prison.

Friends of Shrock say he was once a cowboy and that he killed a man and was sent to prison and afterward pardoned. His father resided in Cleveland, Ohio.

Shrock is understood to have enlisted in the United States marine corps from Fort Wayne, Ind., in 1904.

LIVED IN FORT WAYNE.

Shrock's Friends Here Discredit Tale of Western Crime.

Investigation shows that Edgar H. Shrock lived in Fort Wayne for a matter of something like four years before his enlistment in the United States marine corps, which occurred March 18, 1906. Prior to that time he had worked as a steamfitter for A. Hattersley & Sons, and for the Olds Wagon works, which were then in existence.

During his residence here Shrock boarded with Mrs. Millie Noecker, who then conducted a boarding house at 235 Baker street, and who now lives at 1218 Horace street, and Fort Wayne acquaintances without exception discredit the story involving Shrock's western experience and the killing of a man, as well as his incarceration.

"While we are not absolutely positive as to his earlier life," said a member of the Noecker household to The Sentinel today, "we are confident there must be some mistake. Shrock, we think, was too young when he came to Fort Wayne to have had previous experience as a cowboy, and he apparently talked freely of his past. His home had been at Marion, Ohio, and he had a brother, John Shrock, as well as a sister-in-law in Cleveland. We knew him well and regarded him as an excellent young man in every way. For a year or more he was ill at our house and he was so slight and frail that we were much surprised when he was accepted in the marine corps.

"During his service in the marine corps he wrote us at intervals, and a year after his enlistment spent some weeks in Fort Wayne on a furlough. At least a year of his service was spent on the Isthmus of Panama. His term of enlistment expired in March, but he was delayed in getting back to the United States. We had a letter from him in May and have been wondering why we had not heard from him since that time. Shrock was subject to a peculiar illness that at times rendered him helpless, and I cannot help thinking that this story of his experience as a cowboy, together with the killing, the prison term and the pardon is the product of Shrock's imagination at a time when he was stricken by disease."

TAFT CRUISE GOES TO AN END THIS AFTERNOON

Sea Journey Up the Maine Coast on Board Mayflower Over.

Biddeford Pool, Me., July 28.—President Taft's vacation cruise along the Maine coast ends late this afternoon when the Mayflower sails into Beverly harbor and casts anchor off the summer white house.

The trip to Maine was largely planned for and by Mrs. Taft. The president is burned to a deep tan and except for the strained ankle, of which he still is careful, looks the picture of health.

The president on Friday will pitch into the accumulated work awaiting him and expects to be unusually busy until he goes to Provincetown on August 5, to speak at the unveiling of the Pilgrims' monument, the corner stone of which was laid by Theodore Roosevelt.

CRUISE IS ENDED.

Beverly, Mass., July 28.—The president's cruse came to an end at 3:05 p. m. today when the Mayflower rounded Burgess Point. The president and his party were soon ashore. All were well.

DECATUR SENT BIG EXCURSION TO PARK TODAY

Sunday Schools of That City Held Picnic at Robison Park.

Robison park is pretty well crowded today with Decatur people, the annual reunion of the Sunday schools of that city being held there and it is well attended. Close on to eight hundred children and grown people came from Decatur this morning over the Fort Wayne and Springfield interurban. They were met at the city limits by the city interurban cars and the passengers were transferred from there direct to the park, where they spent the day, returning late this afternoon.

The first contingent of visitors arrived from Decatur about 8:30 o'clock and the rest of them at shortly after 10 o'clock. Twelve city cars were required to take them to the park. Many of them came with well filled baskets and their dinners were of the picnic type. Others patronized the park eating houses. The day was enjoyably spent by all.

Shortly after noon when The Sentinel called up the park Manager Williams said: "It is one of the nicest crowds we have had this season. No special program is being observed. The day is being passed in picnic style and all are enjoying themselves."

Coming events scheduled at the park are as follows: Fort Wayne day on August 10, baby show and baby carriage parade on August 17, the annual farmers' reunion on August 24, children's carnival and vacation parade on August 31.

BIG COUP IN RAIL WORLD GOING ON

[Continued From Page One.]

undoubtedly never paralleled by any one group of foreign capitalists at any one time.

Holdings of the Syndicate.

The holdings of the syndicate, though probably representing an investment of a least $50,000,000, were seemingly amply protected in the early part of the year. But prior to three weeks ago Rock Island common declined 29 points and the preferred 21 points from the prices early in the year. There were losses of more than 30 points in Lehigh Valley, of 12 points in Wabash common and 29 points in Wabash preferred and of 19 points in Missouri Pacific.

It seems to have been about that time that the banks began looking for additional collateral, and that the loans became insecure. The syndicate was called upon last week to strengthen its collateral. Undoubtedly its members could have marshaled resources sufficient to meet the call, for neither Dr. Pearson nor any of his associates is considered seriously crippled, but the syndicate as a whole was unwilling to respond, or at least did not respond.

Stock Market Shows It.

The sequel was seen in the stock market Monday and Tuesday, particularly on Tuesday. Blocks of Rock Island preferred and Missouri, dumped upon the market, sent these stocks tumbling down 10 or more points each. Blocks of Lehigh Valley suddenly offered for sale in Philadelphia demoralized that market, and further offerings of various stocks in which the syndicate was interested threw the New York market into the most desperate confusion of a year of many confused markets.

As a result of the transfer Kuhn, Loeb & Co. find themselves in a position of influence in Rock Island and Lehigh Valley, two important companies in which they have never before been interested. It may be that control of Lehigh Valley will eventually change as a result. Also the bankers find their position strengthened by increased holdings in Wabash and Missouri Pacific, with which they have been connected as bankers since George Gould made terms with Mr. Harriman in the year before Mr. Harriman's death.

Additional Details.

Additional details concerning the taking over of the so-called Pearson syndicate's holdings were obtainable today.

The amount of the stock transferred amounted to several hundred thousand shares. The amount of cash paid by the bankers is probably from $12,000,000 to $15,000,000 or little more than half the sum the Pearson syndicate is believed to have expended for its disastrous experience.

LEHIGH VALLEY SPLURGES.

Philadelphia, July 28.—Lehigh Valley was the feature in local trading and up to 1 p. m. the sale in the stock amounted to 36,000 shares. The stock opened at 71, advanced to 73½, reacted to 69⅝ and at 1 p. m. sold at 72¾. Some New York houses who were selling yesterday were buying today.

WEDELL'S WIFE IS ASKING FOR A DIVORCE

Lived With Him After He Shot Her—News of the Courts.

Although Anna Wedell resumed her relations with Edward Wedell after he had served a term in the county jail for shooting her in a fit of jealousy, she had tired of his abuse and is now seeking a divorce. She filed her suit in the superior court today.

They were married in 1906 and in addition to the shooting she charges that he called her bad names, was abusive and falsely accused her of infidelity.

Drinks to Excess.

Among other things that are charged against Ignatius Blust in a suit filed in the superior court today by Mary Blust asking for a limited separation, is that he drinks to excess and while under the influence of liquor threatens her and accuses her of infidelity. They were married in 1878 and live at 1121 Broadway.

A restraining order was issued to prevent him from molesting the wife while the suit is pending. They have eight children of whom three are minors. W. C. Ryan filed the suit.

included Mr. and Mrs. Melville Brooks, of this city, and Mr. and Mrs. Charles Thoring, of St. Marys, Mrs. Thoring being a sister of Mr. Brooks. In another auto traveling with them were Mr. and Mrs. H. M. Colvin and Mrs. Hallie Hover, of this city, together with a chauffeur, the latter auto escaping injury. Mr. Colvin at once telegraphed friends here of the accident advising them that Mrs. Brooks and Mrs. Thoring were dead, and that Mr. Brooks was dying.

Mr. Brooks, who was about 50 years of age, had but recently sold his interest in the largest auto garage in Lima. He had long been connected with the automobile business. Thoring, who formerly lived in Lima, is engaged in business as a cigar manufacturer at St. Marys.

BOTH ON PENNSYLVANIA.

Two Most Frightful Auto Accidents in History of State.

The accident at Etna Green, fifty miles west of Fort Wayne, is the second of its kind within approximately two years, and by a singular coincidence each was on the Pennsylvania railroad and within a comparatively short distance of Fort Wayne.

It is but two years ago since five persons were killed when a train struck the auto of W. Sherman King, of this city, on a crossing near Columbia City. The accident today cost the life of three persons. The two were strangely identical in character, and no other similar accidents are recalled in Indiana in which the loss of life has been so great.

OFFICERS ARE INSTALLED.

State Deputy Bussy Guest of Protective Home Circle.

State Deputy C. A. Bussy, of South Bend, attended the meeting of Protective Home Circle, No. 279, last night and installed officers elected as follows: Mrs. Clara Case, president; Mrs. Clara Reed, vice president; Miss Alice Sterling, guardian; Miss Nellie Sterling, chaplain; Porter Reed, guide; Miss Lucille Sterling, companion; Frank Starrett, sentinel; Alonzo Graham, watchman; C. C. Case, secretary; Roy Barton, treasurer; Samuel Lewis, accountant; Porter Reed, Samuel Simms and J. F. Morse.

SUITS AGAINST THE MONON.

Indianapolis, July 28.—Fifty suits charging the Monon railroad with having violated rate schedules fixed by the Indiana railroad commission for hauling coal from New Albany to other Indiana towns were filed yesterday in the Montgomery circuit court. Each suit involves the collection of a penalty of $1, docket fees amounting to $50 and costs of the action.

NEW BRIBERY STORY FROM THE SUCKER COMMONWEALTH

Bunch Wanted to Buy Toga for Hopkins, But Roger Sullivan Kicked In.

Chicago, July 28.—The Tribune today prints a statement that an attempt was made previous to the election of William Lorimer as United States senator to purchase seventeen democratic votes at $2,000 a vote to secure the return of the then Senator Albert J. Hopkins. The story comes on top of a recent luncheon where Roger Sullivan, democratic national committeeman for Illinois and representatives of the Legislative Voters' league, fired pointed remarks at each other.

On this occasion Mr. Sullivan is quoted as saying:

"Why don't you fellows look into what Albert J. Hopkins was trying to do at Springfield for four months?"

The Tribune declares that $35,000 was collected to secure the needed votes. It was placed in the hands of two little known legislators and the block of votes selected and made ready for delivery.

It is alleged that Mr. Sullivan and Speaker Shurtliff foiled the plan. The speaker is said to have told the culprits that he would expose the plot from the chair the moment a democratic ballot was cast for Hopkins.

Then Sullivan entered the arena. He arrived at Springfield at midnight one night and, gathering the seventeen about him, threatened to break every political bone in their bodies if they voted for Hopkins. That ended it.

The Tribune expresses the belief that the plot was formed without the knowledge of Senator Hopkins. The story is said to have leaked out to anti-Hopkins republicans and to the democratic leaders through the babblings of one of the seventeen who was rejoicing at the prospect of "easy money."

Mr. Sullivan, to reporters, denied all knowledge of the story. Speaker Shurtliff, who arrived here from Springfield, declined to comment. Senator Hopkins is said to be on a vacation in the west.

FIRST PARDON FROM OFFICE OF THE GOVERNOR

Executive Clemency Frees Human Beast from County Jail.

Executive clemency was extended for the first time in Allen county today under the administration of Governor Thomas R. Marshall and the beneficiary is one of the most loathsome human beasts that has ever graced the inside of the Allen county jail. He is Lloyd Pherson, who committed a nameless crime upon a boy of tender years and whose only excuse for it was that he was drunk at the time.

He is a degenerate of the most dangerous type and the proceedings under which executive interference with his jail sentence was sought have been carried on so secretly that the governor probably never heard the true details or he would not have remitted a fine of $500 that would have kept the fellow in jail for 500 days more.

The little fellow told his father of the crime and Patrolman Harry Grimme succeeded in rounding up Pherson. The details were so revolting that Judge J. Frank Mungovan would not allow them to be heard in open court and at the conclusion he gave the accused a fine and sentence that would have kept him in jail 680 days.

The six months have been served and were up two weeks ago and the notice of the remittance of the fine was received today by Sheriff A. M. Reichelderfer, who has no alternative but to turn the loathsome creature loose on the public. Judge Mungovan's fine and sentence were considered light enough at the time by persons who heard the little fellow tell of the horrible deed.

The specific charge against Pherson was assault and battery and the court went just half the limit in the matter of a fine as the maximum is $1,000. The pardon is said to have been procured for the reason that the fellow had at one time been respectable and that his parents need his support.

WATERMELON FEAST.

The James E. Graham Brotherhood of the Simpson M. E. church will give a "watermelon feast" at the home of John Greider, on Packard avenue, near Broadway, this evening. A broad smile will be the price of admission and without this guests will be turned away.

SMALL GRIST IN COURT.

Judge J. Frank Mungovan had about twenty minutes of city court today in which he fined Jack George $5 and costs for drunkenness; Charles Franke $10 and costs for associating with Ida Van Allen and the woman $10 for being the kind of woman that the law forbids men from associating with. James Chamberlain for stealing a bicycle was given a continuance until tomorrow and three Pittsburg train climbers were held until Monday.

BRUTAL FATHER A FUGITIVE.

Dublin, Ind., July 28.—Lemuel McMullen, charged with mistreating his children, resisted arrest yesterday and exchanged shots with the sheriff's posse. He escaped and is believed to be hiding in the home of one of his relatives, southwest of here. An attempt to capture him will be made at daybreak and the officers expect McMullen will make desperate resistance

RUINOUS ALIKE TO ALL INTERESTS, SAYS EXPERT

Electrical Writer in Fort Wayne Studying Lighting Competition.

Competition in the electric lighting field in Fort Wayne between the city and the Fort Wayne and Wabash Valley Traction company is ruinous business for both interests in the opinion of Glenn Marston, of the Electrical World, who is in Fort Wayne to study the competitive electric lighting situation here in the interest of his journal.

"Competitive competition is foreign to the most economic operation of the electrical business," continued Mr. Marston, "but there should be no reasonable monopoly of the business. The electric company in business in any city should be fair in all things, but it cannot develop and assist a city to grow if it is called upon to meet unfair competition in the form of a municipal plant selling current for commercial purposes."

Admitting that the municipal ownership idea is not attractive to him, Mr. Marston contends that his position is amply sustained by developments over the country. Municipal plants are going out of business constantly, he says, particularly in Europe, from which Mr. Marston has just returned. Mr. Marston says that but four or five other cities in the United States as large as Fort Wayne are experimenting with municipal lighting. He believes the energy used up in the fight between the private corporation and the municipal plant might be much better devoted by both sides to a building up of the community rather than expended in a warfare on each other. Mr. Marston will leave tomorrow for Chicago.

President Jones Returns.

President J. Levering Jones, of the Fort Wayne and Wabash Valley company, arrived in the city at noon from Philadelphia to further go over the local situation. T. L. Hicks, of Philadelphia, representing eastern financiers, is also here for a close-range study of the outlook with reference to further investment of money in the development of local traction properties.

TWENTY TEAMS WILL WORK TO MAKE OPENING

Additional Equipment to Rush Tunnel at Calhoun Street.

Seven teams will be added tomorrow by Trippeer & Son to the thirteen that have been working all day to get an opening under the tracks at Calhoun street so that a car line can be put in service and the contractors have promised to push the work just as rapidly as possible, although they will set no time limit as they do not know what obstacles they will meet when they get under the railroads.

Members of the board of public works have been on the job all day trying to get quick action on the tunnel and have gotten a good start and are satisfied that in a few weeks temporary tracks can be put down.

Consult With Sullivan.

Members of the board of public works had a meeting scheduled for this afternoon with Superintendent J. C. Sullivan, of the Wabash Railroad company, at which they will put to him the question of opening Webster street under his company's tracks. The Pennsylvania will grant a right of way under its road, but the Wabash has to give its consent before the deal can be finally closed.

Mr. McKim Was Wrongly Put.

Supt. J. B. McKim, of the Pennsylvania railroad denies that he made objection to the railroad company's paying for the extra excavations for the proposed tunneling at Webster street, such as may be made necessary by the widening of the fill. Mr. McKim says it is the company's proposal to pay for the excavation. The Sentinel's statement of the matter in Wednesday's issue was made on the authority of Chairman Benoy, of the board of public works and City Attorney Hogan.

Board of Works Routine.

At the meeting of the board of public works this evening bids will be received for cement sidewalks on both sides of Spy Run avenue from St. Mary's bridge to Elizabeth street and on the west side from Elizabeth street to the feeder canal bridge; on both sides of Wildwood avenue from South Wayne to Indiana avenue; the east side of Broadway from Home avenue to Wildwood; south side of Suttenfield from Warsaw to Hanna; both sides of DeWald from Calhoun to Lafayette and south side of DeWald from Warsaw to the alley west of Hanna.

The assessment roll for a sewer in Nebraska will be up for confirmation as will the resolution for widening Nuttman avenue from Fairfield avenue to South Wayne.

INDEPENDENTS ARE GOING TO GET IN FIGHT

Pennsylvania to Have a Ticket for Voters of Conscience.

Philadelphia, July 28.—Prior to the opening of the independent state convention called by republicans and democrats dissatified with the candidates placed in the field by the two old political organizations there was much uncertainty as to who will head the ticket for governor.

The three candidates most frequently mentioned during the last few days are William H. Berry, (dem.), former state treasurer; D. Clarence Gibboney, (independent rep.), of this city, head of the Law and Order society, and George W. Guthrie, (dem.), former mayor of Pittsburg.

The real contest seemed to be between Berry and Gibboney and the lines were so tightly drawn that Rudolph Blankeburg, of this city, (independent rep.), was brought forward as a possible compromise candidate. Mr. Blankeburg, it is said, does not desire the nomination.

Berry was elected state treasurer in 1905 on a fusion ticket and exposed the capitol fraud after getting into office.

The United Labor party, an outgrowth of the trolley strike here last spring, has demanded that it be given representation in the convention and on the state ticket, but the executive committee announced under the call for the convention the United Labor party could not be given the representation it asked. The labor party candidate is Hugh Frayne, of Scranton, for secretary of internal affairs. Mr. Frayne is an organizer for the American Federation of Labor.

VIOLENT RISE IN PRICES.

Stocks Show Further Rebound on Wall Street.

New York, July 28.—There was another violent rise in prices of stocks today in a further rebound from the excessive depression of last Tuesday. The recovery was stimulated by the circumstantial reports of the taking over by an international banking syndicate of the holdings of an embarrassed interests which had over-extended itself in an attempt to control a new transcontinental railroad combination.

The removal of large amounts of securities overhanging the market found a large short interest uncovered and counting on a continuance of the liquidation. Their urgent demand was supplemented by heavy buying by both foreign and domestic interests.

The active list of stocks had risen from 2 ot 4 points over yesterday's closing prices during the first hour.

W. J. Quillinan, of Chicago, chief clerk to Division Freight Agent Wood, of the Pennsylvania lines, is in the city. Mr. Quillinan is preparing to remove to Fort Wayne.

WOMAN ADMITS THE THEFT OF ZUGG MONEY

Owner Will Take Household Goods and Get Married.

Dottie McManus, known here as Dottie Powers, admitted to Chief Ben Elliott, of the police department and Detective Sergeant Pappert that she stole $115 from Alfred Zugg and $18 from William Kohler about a month ago.

She bought a lot of household goods and set up housekeeping with a fellow who gave the name of Harry Powers and part of the cash was recovered. She has agreed to turn over all the household goods she purchased with part of the money to Zugg and he says he will get married and use the articles to start his own home.

The McManus woman kept houses of ill fame in Toledo and Defiance and Zugg came here from Bluffton and with Kohler, who is his half brother, they got drunk. They went to sleep at a house at 305 Melita street and the woman got their money. She contended that she was innocent and when she was arrested a charge of living with Powers was put against her and she went to jail.

Powers' real name is Lee Chandler and he lives at Bowling Gren, O. They were preparing when they were arrested to go to housekeeping on Simon street.

THE DEATHS.

MILLER.

Jacob W. Miller, 74 years of age, a former sheriff of Whitley county, died Wednesday at St. Joseph's hospital in this city, where he had been a patient for two weeks following an operation for obstruction of the bowels. His case had been regarded as extremely critical from the first.

Mr. Miller was born in Starke county, O., but came as a child with his parents to Indiana. He served for four years, from 1870 to 1874 as sheriff of Whitley county, later embarked in the hotel business at Columbia City, and still later was engaged in mercantile pursuits. For some years he was located in Colorado as a mason contractor, returning to Whitley county eight years ago, and had been living on a farm in Thorncreek township owned by his son.

The deceased was a charter member of Due Guard lodge of Masons at Larwill, and is survived by the widow and three children—Mrs. Eva Ligget, of Liberty Mills; George F. Miller, South Whitley, and H. M. Miller, Columbia City. Jerry Miller, of Fort Wayne, is a brother.

POSTAL BANKS TO OPEN OCT. 1.

Experts Recommend Introduction in 2d and 3d Class Offices.

Washington, July 28.—Postal savings banks will be established Oct. 1 by the board of trustees, provided they accept the recommendations of the special department committee of experts appointed in an advisory capacity. The experts have decided that a number of second and third class postoffices throughout the country should be selected for the introduction of postal savings banks, and that the banks should be opened on the date named. The board of trustees will hold another meeting early in August, after the return of Postmaster General Hitchcock from abroad, when the recommendations of the committee will be indorsed. It will be strongly urged that the banks be not established at this time in offices of the first class. The committee deems it desirable that so far as possible each of the forty-seven states be given an experimental bank. To date over 300 postmasters have requested that they be permitted to open postal savings banks, and 644 banks have asked that they be designated as depositories for postal funds.

HE READ THE WHOLE MODEL PLATFORM DID COLONEL

Mr. Roosevelt Twice Said "Indeed," But Not a Word More Did He.

Oyster Bay, July 28.—Ex-President Roosevelt today read every word of the platform adopted at Columbus, O. When a copy of the platform was shown to him he took off his eye glasses and held the paper close to his eyes, as is his custom when he is particularly interested in what he is reading.

"Indeed," he exclaimed, as he read the plank relating to the tariff. He repeated the exclamation when he came to the conservation plank.

"There is nothing that I can say," Colonel Roosevelt remarked when he had finished reading. He added that he might possibly make a statement on the Ohio situation in a few days.

If you suffer from backache—
From urinary disorders—
From any disease of the kidneys,
Be cured to stay cured.
Doan's Kidney Pills make lasting cures.
Fort Wayne people testify.
Here's one case of it:

Jesse Patton, R. F. D. No. 15, Fort Wayne, Ind., says: "For years I was afflicted with kidney complaint. The kidney secretions were highly colored and too frequent in passage. Often when I stooped, everything before me seemed to be whirling. My back ached intensely and I was scarcely able to attend to my work. Nothing helped me in the least until I used Doan's Kidney Pills, procured from Meyer Bros. Co.'s Drug Store. This remedy disposed of my trouble and I was thus convinced of its merits." (Statement given December 3, 1908.)

NO TROUBLE SINCE.

Mr. Patton was interviewed on July 2, 1910, and he said: "The cure Doan's Kidney Pills effected in my case has been permanent. I always deem it a pleasure to give this remedy my endorsement."

Judging solely from his keynote effort at Columbus we conclude that Hon. Nick Longworth was in a deuce of a mix to determine whether he owed the most to the titular head of the republican party or to his wife's pa.

We observe with something akin to approbation that republican newspapers of the violent type are not willing upon the fact of his mere reverse in the Nebraska democratic convention to predicate the death of the peerless one. Mr. Bryan has been dead heretofore—a good deal deader, if the manner of his undoing and the magnitude of contrary circumstances can speak for anything, than he is now.

If the Rawn family can discover any good that has been wrought for the living or for the memory of the dead by the palpable and senseless fiction of a suicide of the Monon magnate there will be admitted justification for the Rawn family's course. However, it has not yet appeared that anybody, living or dead, has profited from the consecutive issue of weird and improbable stories of the man's death. The authorities very early abandoned the burglary and murder theory and evolved one of suicide from extremely probable and convincing circumstances of the dead man's life and situation. The memory of the dead hs been made to suffer a good deal that was escapable.

It appears from the most recent batch of scandal relating to the late Illinois legislature that almost anybody could go down to Springfield and bribe that eminent body of popular representatives to do almost anything or anybody. Even a decent fellow had to watch out or his friends would go rushing in with the coin to buy something for him without his knowledge or consent. United States Senator Albert J. Hopkins, whom Lorimer's unidentified moneyed friends defeated, had a thrilling escape from having his toga purchased for himself, though he knew nothing about it at the time. Statesmen in Illinois will learn to be more careful, more vigilant, more restraining upon their friends who have it in bales and barrels.

Hon. James Eli Watson of Indiana and the United States of America firmly, indignantly and categorically denies the charges launched against him by Hon. Hamilton Fish, a congressman from New York. Mr. Watson denies that he was in any position to possess himself of the secrets of the ways and means committee of the house; that he made use of any such information; that he was in the employ of special interests to procure for them any favors or advantages in the framing of the tariff. He says he was employed by the manufacturers' association to labor with what influence he had to bring about the adoption of the tariff commission feature of the tariff act, but beyond that nothing. That seems to settle it. And it was well known, as already we have given statement to with emphasis, that Congressman Watson did not resign to run for governor. The vindication is complete.

Ohio insurgents are of the parlor sort and in no way can be likened to the fighting breed of insurgents produced in the west. Hon. James Rudolph Garfield, insurgent, conservationist of the Pinchot brand, the despised and rejected of the Taft administration and the peculiar target of the Ballinger clique in the Taft administration, joined hands with the administration crowd at Columbus and was mighty helpful in bringing about the harmony that marked the state gathering of the Ohio party. In allying himself with the Taft crowd to trip Boss Cox and his candidate Garfield deserves praise. The undoing of a bad politician any time and anywhere is a feat to be commended. The platform suits Mr. Garfield and his adherents, though it couldn't by any means get past Norris, Madison, Murdock, Cummins, LaFollette or Beveridge. And therein is shown the moral discrepancy of eastern insurgency as compared with western insurgency. The Aldrich tariff is approved in the Ohio platform as just about a 100 per cent. good thing. The real insurgents voted against the measure as a mass of revenue proposals so unjust and iniquitous as forbade their giving it countenance in any way. The Ohio platform was designed to beth e Taft model of what state platforms should be in respect of their references and relations to national issues and the national administration. The conservation plank rammed into it by Garfield ought to satisfy insurgents anywhere, but if it suits Garfield how can it suit Ballinger and the administration, whose chief concern and pet child Ballinger is? However, the Ohio situation was peculiar. It was the gathering of the cohorts in the president's home state. Local differences grave enough to furnish plenty of trouble are perennial. With the bouncing of George B. Cox and his candidate perhaps as much as could in reason be expected was tendered as a concession to the more independent elements.

WANTED—HOUSE; SEE HUGHES.

Governor Has Difficulty in Finding Suitable Washington Home.

Washington, July 28.—Governor Hughes, of New York, who is in Washington with Mrs. Hughes, house-hunting, is having great difficulty in finding just what he wants as his home when he comes to take a place on the United States supreme court bench. Real estate agents have placed their services at his command, but as diversified as are styles of architecture here the governor cannot locate anything suitable. This is because he demands a house built around a library, not being particular about anything except the library, while Mrs. Hughes is looking for a house which has a large yard and stately trees. The combination of a large library in a stately grove does not seem to exist here.

TELLS STORY OF BIG GRAFT.

How Illinois Central Was Robbed in Car Repair Frauds.

Chicago, July 28.—Harold A. Sims told a striking story of wholesale graft before Master in Chancery Roswell B. Mason here in connection with the investigation being made into the alleged $1,500,000 car repair fraud in the Illinois Central railroad.

Sims, former car inspector for the railroad and later in the employ of one of the five car repair companies, charged with the fraud, declared that the Illinois Central was made to furnish not only materials but also labor for repairs and then was charged from one to three prices for the work through an elaborate system of padded bills.

THE COLONEL WILL NOT BUTT INTO CAMPAIGN

Back Seat for Him in Politics and a Boost for His Friends.

Oyster Bay, N. Y., July 28.—Those who heard Theodore Roosevelt talk at Sagamore Hill yesterday afternoon came away with a sharply etched shadow picture of what his attitude will be in state and national politics. Primarily he wishes to keep in the background in the approaching campaign, for he feels that, taking too prominent a part in it, he may be accused of assuming a dictatorship.

These views Col. Roosevelt has explained to those who have come to see him recently. He tells his visitors that he is anxious to take a hand as a private citizen, but he is willing to go no further.

Broadly speaking, he will, as he has said on several occasions, do all in his power to help the men who stood by him and his policies formulated during his years in the white house, but he is noncommittal as to whether he expects to carry this to the point of coming out openly in favor of the republicans all over the country whom he considers to be standing for his ideas.

May Forget Party Lines.

He does say, however, that he must forget factional differences and even party lines, and support the men and the things which he believes to stand for the best interests of the country as a whole. But he has not made up his mind when he will take any decided stand.

The republican situation in this state is shifting so rapidly that the colonel says he is having trouble keeping pace with it. During yesterday's interview there were mentioned to him the names of Representative Hamilton Fish and William H. Hotchkiss, state superintendent of insurance, as having been spoken of recently in connection with the gubernatorial nomination. He replied by naming over the whole list of men who have been mentioned—adding that he had no idea whatever as to who the best man would be. He repeated in substance his recent declaration that the people must choose their man, and that his nomination must result from this fact, not because one man or one set of men wanted him. To this statement he added that he had not even decided whether to attend the republican state convention at Saratoga.

Silent at Ohio News.

When the colonel heard the news of the Ohio republican convention he sat silent and motionless in his chair for a full minute. He looked as if he wanted to say something, and the interviewers leaned forward for his expected statement on Ohio politics. Suddenly he brought his hands together with a smack and said:

"Not a word to say, gentlemen; not a word to say."

Col. Roosevelt said he had not been reading up on Nebraska politics lately, and had not heard how William J. Bryan had fared in the democratic convention in that state.

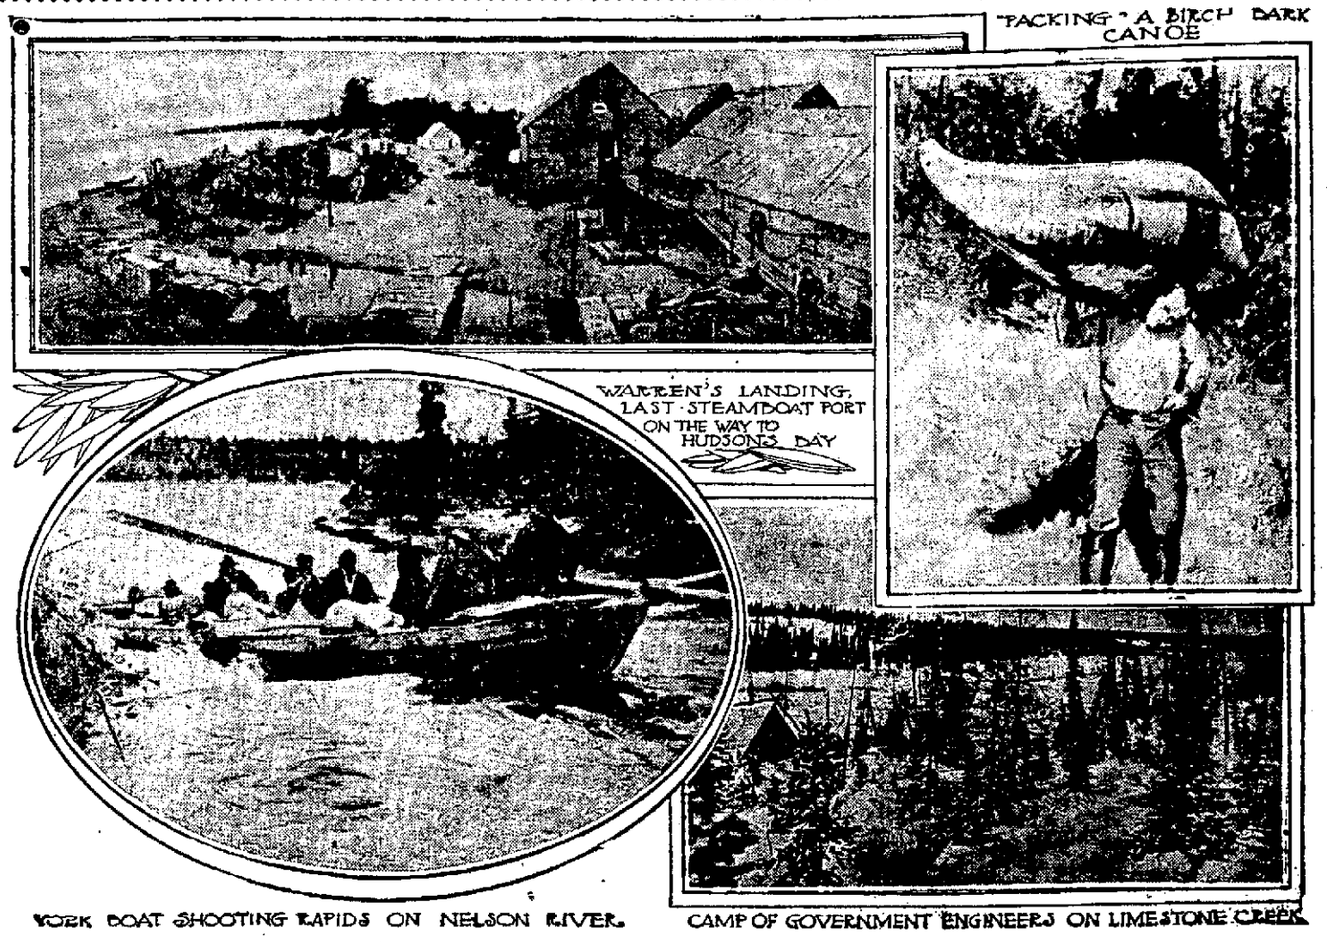
A FAR NORTHERN OUTLET FOR WESTERN GRAIN IS PROJECTED.



YORK BOAT SHOOTING RAPIDS ON NELSON RIVER. CAMP OF GOVERNMENT ENGINEERS ON LIMESTONE CREEK

Winnipeg, Man., July 28.—A northern outlet for western grain is a project which has loomed before the great northwest for many years. The Canadian government is preparing to open up and develop such a route in the immediate future. Parties of engineers have invaded a territory sacred for generations to the traders of the Hudson Bay company, and the government is now calling for tenders for the first section of a railway which will bring the Dakotas, Minnesota, Montana and the Canadian prairie provinces as nearconnected with the department of tidewater as Michigan.

Not only have the engineers invaded this territory but tourists have found in it a new stamping ground, and this season they will have an opportunity of traversing for themselves a country now given over to the Indians, but which in a decade will be cut by one of the grain shipping arteries of America. The few who have heretofore traveled between Manitoba and Hudson Bay have been either missionaries, traders or employes of the government of Indian affairs. They have not told of what they encountered except to a limited circle, so that the impression remains that the trip is one of great danger and difficulty. That this is not the case is shown by the proposal of Earl Grey, vice regal representative in Canada, to make the trip this summer.

Earl Grey proposes to travel over the greater part of the route to be taken by the new government railway from the Pas Mission, on the Saskatchewan, to the mouth of the Nelson or Churchill river. The trip will take the party over some of the finest canoe routes to be found on the continent, for the Nelson river is second in volume only to the Mississippi, while its current is much more rapid. York boats and canoes are the only means of transportation at present in the country, with Indian or metis paddlers. The country abounds in game and fish, so that fresh meat supplies are obtained en route, while equipment must be reduced to a minimum of weight.

KILLED BY AN ELEPHANT.

American Soldier of Fortune Meets Death in South Africa.

Sacramento, Cal., July 28.—Frank N. Tilden, a soldier of fortune, son of the late Judge M. C. Tilden, of Sacramento and Carson City, Nev., was killed by an elephant he had wounded near Fort Jamison, Rhodesia, South Africa, May 28 last, according to a letter received Tuesday by Capt. E. L. Hawk Rowell, of San Francisco, who accompanied Tilden to South Africa two years ago.

In his letter Rowell states that since the accident he has been ill and learned none of the particulars regarding Tilden's death and will not until the natives who were witnesses can be brought together at an inquest. It is presumed that Tilden's body was buried at Fort Jamison. Tilden made a fortune in African and Alaskan gold fields. He owned a large rubber plantation at the time of his death.

HOT-WEATHER CONSTIPATION

People should be very careful at this time of the year not to become constipated, and if they do become constipated to attend to it promptly. Many people have a special tendency to constipation in hot weather, owing to the sudden change in food and to the fact that the natural moisture of the body that in winter remains within and helps to digest the food, leaves the system in the summer in the form of perspiration. Constipation should be immediately relieved. The best way to do this is not, as some suppose, by eating themselves sick with fruit and making the matter worse, nor by taking salts and laxative waters, which, as all who have tried them know, give but temporary relief; but, on the contrary, you should use a tried-and-true remedy like Dr. Caldwell's Syrup Pepsin, which acts quickly but mildly and which relieves permanently so that a steady and lasting cure results. A bottle can be bought of any druggist, in sizes of 50 cents and $1.00. Those who have not yet tried Dr. Caldwell's Syrup Pepsin, and would like to make a test of it, can do so FREE OF CHARGE by sending their address for a SAMPLE BOTTLE to

HOSPITAL SUNDAY WITH GERMAN LUTHERANS OF THE CITY

Great Meeting to Be Held Next Sunday at Concordia College.

Next Sunday will be hospital Sunday with the German Lutheran congregations of Fort Wayne and vicinity and a great meeting in the interest of the Lutheran hospital, located in this city, will be held on that day at Concordia college gymnasium hall. It will be held in the afternoon at 2:30 o'clock and the membership of all the churches of the denomination in the city will participate in it.

The purpose of the meetings held that day is to take steps for the liquidation of the hospital debt. The institution in the southern part of the city was built some five years ago. Its cost was $150,000. This includes grounds, buildings, and equipments. The conduct of the hospital has paid for itself, including the payment of interest on the debt for the lands and buildings. This debt is about $65,000. It is hoped to raise one-third of this amount next Sunday.

In the morning, at the forenoon services in the various German Lutheran churches here and in other places in this vicinity, sermons pertaining to the hospital will be preached by the pastors and subscriptions taken for the cancellation of the hospital debt. The amount of these subscriptions will be reported at the afternoon meeting.

The principal sermon at the afternoon meeting at the Concordia college will be preached by Rev. A. Almstead, of Granite City, Ill., the superintendent of the hospital located at that city. He is a splendid orator and intimately acquainted with hospital work. There will be other speakers, including the pastors of the churches in this city. The college gymnasium hall will seat 4,000 people and it will probably be taxed to its capacity Sunday afternoon for this meeting.

The Lutheran hospital is supported by fifty German Lutheran congregations in Fort Wayne and vicinity. It has been doing a grand work and has been successful from the start, as is evidenced by the fact that it has been self-supporting from the start.

SEEMS TO SETTLE IT.

Two Die in Pistol Duel About Woman Both Wed.

Little Rock, Ark., July 28.—A coroner's jury, which investigated the double killing of Ben Barger, an employe of the Tennessee Brewing company of Memphis, and C. M. Gaynon, a member of the fire department of this city, has returned a verdict that each man came to his death from a shot fired by the other. Mrs. Gaynon some time ago procured a divorce from Gaynon and married Barger, but after one year divorced Barger also and remarried her first husband. When Barger saw Gaynon yesterday he sent Gaynon a written challenge, in which he said:

"You have got my wife and you have got to fight me. Are you man enough? Please name the place we can meet. You are a rotten coward if you don't fight."

He also attempted to inveigle Mrs. Gaynon from home by sending a false message to her that he had shot himself and was calling for her.

Barger was the stepbrother of Mrs. Gaynon. His mother is still living at Rugby, Tenn.

LUTHERANS WILL ATTEND

Synod of the Church to Be Held at Cleveland.

All the German Lutheran pastors and teachers in the city, with one layman from each of the congregations, will leave next Tuesday for Cleveland, O., to attend the sessions of the Middle district of the Missouri Synod, which begin on Wednesday, August 3, and continue for a week, ending August 10. This fact, however, will not interfere with Sunday services in the Lutheran churches on the Sunday the pastors are away. Each of them have made arrangements for a supply.

The synod is an important one this year, subjects of special interest to the church being discussed. Similar sessions have been held in this city. A matter of local interest in connection with the meeting this year is the fact that the president of the synod is a former Fort Wayne boy, Rev. John Wefel. He was born and lived for years in Fort Wayne, attended the schools and colleges here, and was ordained to the ministry in this city. He is the pastor of the St. John's Lutheran church in Cleveland.

WILL GO TO MUNCIE.

Rev. J. K. Cecil to Conduct Religious Service There.

Rev. J. K. Cecil, the pastor of the First M. E. church, will go to Muncie tomorrow to preside at a preliminary meeting and reception to be held in the evening at the Madison Street M. E. church, a service preliminary to the reopening of the church edifice on Sunday, it having undergone extensive repairs. Rev. P. E. Greenewald is the pastor of the Muncie church and it is at his invitation Rev. Mr. Cecil attends this Friday evening meeting. On Sunday the reopening service will be of an especial interesting character, the sermon being preached by Bishop David H. Moore.

DEDICATION OF NEW CHURCH.

Bishop Alerding Goes to Gas City for That Purpose.

Rt. Rev. H. J. Alerding, the bishop of the diocese of Fort Wayne, will go to Gas City on Sunday, October 2, to officiate at the dedication of the new Holy Family church at that place. He will be assisted in the office by visiting clergymen and distinguished men from all parts of the state will attend the ceremonies. Governor Marshall will deliver an address in the afternoon and Bishop Alerding will confirm a large class of boys and girls and deliver the dedicatory sermon. The Rev. C. E. McCabe is pastor of the new church and under his direction an elaborate program will be prepared for the event.

VIC MURDOCK WILL GIVE UNCLE JOE NO REST

Lets the Light in on the Cannon Way of Running Our Congress.

Pleasanton, Kan., July 28.—In a speech here yesterday afternoon, Congressman Victor Murdock said that "In the day of his power it was harder to get into Speaker Cannon's chamber than into the white house." Continuing Mr. Murdock said:

"Only the members of his cabinet had the entry and who is in that cabinet? Why, Senator Lorimer for one. Lorimer, whose election to the senate is a national scandal. Who for another? Why, Joe Sibley, of Pennsylvania, who takes care of the lubricating end of the Standard Oil company's business. Then there is Lucius Littauer, of New York, go-between for Tammany.

"Those are types of the speaker's associates. This is the man who ran your congress for you. There are many of us who can testify to the weight of his hand. What happened when a congressman dared stand in his way? Cooper, of Wisconsin, Norris, of Nebraska and Gardner, of Massachuetts, did it and they were lifted out of their committee places. I did it and what happened to me? It took Cannon some time to fix my punishment. He did not want to do anything that would make a martyr of me in Kansas. So he adopted the refined cruelty of taking me out of fifth place on my committee which I had worked up to in six years, and put me down at the bottom again and there I am now.

"Well, do you imagine I can't kick as hard at the bottom of a committee as in the middle of it?"

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. Furniture of Mahogany Must Have Attention

Its Finish Needs Occasional Applications to Keep It from Drying.

Given a little ordinary care, mahogany furniture need not be "done over" in a lifetime. But, something like the human skin, it must be kept from drying. Its finish, whether it be varnish or wax, needs applications to prevent it from drying, else it will crack or look dull. Also, and this seems to be understood only by those who have given careful attention to old furniture, it must be kept clean. Dirt discolors and injures, entirely preventing that even softness of color and surface so much to be desired.

All mahogany—once a year, or twice when it is in constant use—should be rubbed down with pumice stone and linseed oil. One housekeeper saves any olive oil that may have gone rancid for this purpose, for it acts there equally well. The pumice stone is to be ground fine.

To use, the surface is moistened with oil, and then a wad of old, soft cloth is dipped into oil, then into pumice and the piece is gone over with this roughened swab, renewing the pumice, and adding oil as it is required to prevent scratching. Should the cloth become too dry the finish would be injured. To get into deep carved places a wooden stick can be wrapped with cloth and then dipped into the cleansing combination.

This done, there should be a preparation of one-third turpentine, one-third vinegar and one-third linseed oil. This is to be well shaken, and then put on as a wash, using a cloth for the purpose. Every grain of pumice must be taken off with this and the surface dried.

By that time it is ready for the finishing polish, which should be a thin liquid. It may be a temptation to use a thick one, but be it remembered that any stickiness becomes a center for dirt, and in a week the wood will look worse than before anything was done.

A good polish which may be made at home consists of an equal mixture of benzine, olive oil and vinegar. This is to be applied with a soft cloth and then polished vigorously with a dry one. This polish is explosive, and must be kept from light and heat.

Few housekeepers know, but it is a fact that a mixture of salt and olive oil will remove those white stains from hard wood which are caused by hot dishes. The dry spot is covered thickly with salt and then as much olive oil is poured over as the grains will take up. This stands over night and in the morning the discoloration should be briskly rubbed with the mixture, which is then wiped off. If there is still any trace of stain, the application is repeated, again standing for hours.

SIMPLE MORNING FROCK.

PHOTO BY JOEL TEDER.

Even the woman over forty looks girlish this summer in the babyish little dresses which are the fad for morning wear in the country. This little frock is made ov very sheer handkerchief linen, with pleated skirt and a seamless bodice buttoned down the back. The embroidery is done in two shades of Dutch blue washable floss, and the belt is a wide, soft affair of varnished leather.

WHY SOME WOMEN GROW OLD.

One reason why the average woman wears out, grows old and plain before her husband, is that, through a mistaken idea of duty, she lays out for herself at the beginning of her married life a scheme or plan of duty and employment for her time, every hour filled with work, with rare and short periods of relaxation, says Woman's Life.

This she follows religiously for years, feeling that she has done her duty, because every household event occurs regularly and on time, while she soon becomes merely a machine, a thing without life of itself or volition. She settles into her rut and goes round and round on the same track everlastingly.

Can any woman keep brightness, originality of thought or speech or even mere prettiness with such a life? and without those things how can she keep her husband and growing children full of loving admiration, which is the strongest chain by which she can bind them to her? How bright and jolly the neighbor's wife seems when she calls. In nine cases out of ten it is because the surroundings and talk of your home are variety to her and rouse her to originality and brightness of speech.

In her own rut she may be as dull as dish water.

HEALTHFUL USE OF BLACKBERRIES.

For blackberry wine, wash four quarts of berries and pour one quart of boiling water over them. Let stand twenty-four hours, or until they commence to ferment. Press out all the juice and put the liquid in a keg or large stone jar, filling full, and keep some extra in order to fill up with. Let it work over the top, filling up as it needs it. When it stops working, rack off, put in a clean keg and cork tightly.

For blackberry brandy, to one quart of berry juice add one pound white sugar and a teaspoonful each powdered allspice and ground cloves. Boil a few moments; take from the fire, add a pint good brandy, bottle and cork tightly.

To make blackberry cordial, put the berries in the preserving kettle or a stone jar set in a pot of boiling water and simmer until soft. Strain through cheesecloth wrung out of boiling water. Measure the juice and to each quart allow a pound granulated sugar, two tablespoonfuls ground cloves, four of cinnamon, one of mace and two of allspice. Tie the spices in thin bags. Boil together for fifteen minutes, skimming well. Add when cold a pint or half pint best brandy for each quart of syrup. Strain out the spices and bottle, sealing tightly. Dose in bowel troubles, from one teaspoonful to a wineglassful.

TO STEADY PICTURES.

A housemaid wth a duster is everlastingly setting askew small pictures, and the average room, after dusting, looks sadly awry. All sorts of picture hooks have been invented which are supposed to grip the picture, the clamps being driven into the wall, but everything of that sort has some objection.

The simplest and most nearly infallible way of keeping a picture immovable is by making a small gimlet hole in the extreme lower point of the frame where it touches the wall and at this point driving a small brad into the wall, leaving about half an inch protruding, says Woman's Life. The hole in the frame caps this brad like a socket and the ordinary dusting of the picture does not move it in the least.

REMEMBER THIS.

When cleaning with gasoline, chlorgform or, in fact, any fluid, a folded soft rag, preferably in ball shape, should be placed under the stain before the cleansing liquid is applied. This will prevent a ring from forming. When by reason of a lining it is impossible to do this, a ring of French chalk should be placed around the stain so as to absorb any superfluity of the liquid.

WEDDING IS CLIMAX TO PROLONGED ROMANCE.

MRS. MELVILLE BURKE WOOD

New York, July 28.—After a romance lasting nine years Miss Estelle Marion White, daughter of Mr. and Mrs. Thomas White, of No. 966 Anderson avenue, the Bronx, was married to Mr. Melville Burke Wood, a son of the late Edmund Burke Wood, once chief justice of Canada. Mr. Wood and Miss White first met nine years ago at a musicale given by a mutual friend in Denver, where Mr. and Mrs. White and their daughter were living at that time. This meeting ripened into love and culminated in the wedding. After a honeymoon trip of several weeks Mr. Wood and his bride will make their home in Minneapolis.

WANT THE UNWRITTEN LAW.

Louisiana Women Seek Exoneration of Woman Who Killed Man.

New Orleans, July 28.—Basing their appeal on the "application of the unwritten law to women," the Era club, one of the leading women's organizations of Louisiana, has called upon all other organizations of women to pledge their support to secure the exoneration of Mamie McLoughlin, charged with murder. Miss McLoughlin shot and killed Hugh Smith, a wealthy saloon proprietor, when she met him accompanied by another young woman on St. Charles' avenue here several days ago.

Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at forty or forty-five ought to be at her finest and fairest. Why isn't it so?

The general health of woman is so intimately associated with the local health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness.

Women who have suffered from this trouble have found prompt relief and cure in the use of Dr. Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in "Favorite Prescription." Any sick woman may consult Dr. Pierce by letter, free. Every letter is held as sacredly confidential, and answered in a plain envelope. Address: World's Dispensary Medical Association, Dr. R.V. Pierce, Pres., Buffalo, N.Y.

Wayne lodge No. 25, F. and A. M., will confer the third degree upon George W. Telly this evening.

Rev. Father King, a young clergyman recently ordained, preached his first sermon at the Cathedral Sunday.

Frank Falker will resign his position with A. C. Trentman about September 1 to engage extensively in the patent right business. Frank is a worker and will succeed.

Max Wolf and Joe Helt went north on the Grand Rapids road this morning to sell patent rights. Among their outfit is a shaft lifter and clothes hook. They packed their Saratoga at Foote's cigar store, and it met with the usual fate. When the express man called to take it to the depot, he found it spiked to the floor. They raised it with their shaft lifter and checked it to Kendallville yesterday, intending to follow it today. The number of the check was obtained and a telegram was sent ordering the trunk returned to Avilla. When Messrs. Wolf and Helt arrive at Kendallville and discover the job put up on them, it is probable they will go gunning for Mr. Foote.

Quite a number of prominent citizens met at the superior court room last night to arrange for an occasion when the people of Fort Wayne can pay proper tribute to General Grant. Mayor Muhler was called to the chair and S. M. Foster acted as secretary. Short addresses were made by Hon. R. C. Bell, Hon. Robert Lowry, Mr. Harry Hanna and Hon. F. P. Randall. A resolution was adopted empowering the chair to appoint a committee of thirteen, four from the city at large and one from each ward, to prepare a memorial program. This committee was named as follows: First ward, F. P. Randall; Second ward, C. Tresselt; Third ward, James M. Kane; Fourth ward, J. K. Edgerton; Fifth ward, George H. Wilson; Sixth ward, Gottlieb Haller; Seventh ward, George DeWald; Eighth ward, William D. Page; Ninth ward, J. R. Prentiss; from the city at large, Hon. Robert Lowry, Judge Allen Zollars, Judge John Morris, H. H. Robinson.

CURES AT YOUR OWN PRICE—Every person who calls on me before August 1st will not only receive a careful and thorough examination FREE OF CHARGE, but absolutely no fee will be charged during that time other than you yourself are willing to pay.

This is of special importance to every person who realizes the value of original methods. What I have claimed in reference to the influence of any Pelvic or Rectal Disease on the Sympathetic Nervous System and all reflex conditions is now the accepted theory of the leading scientists.

No man can afford to undertake his daily work without being fully equipped mentally and physically.

SPRING IS HERE—It is a well known fact that the enervating days of spring and the early days of summer weather have a very deleterious effect upon all sufferers from chronic diseases. Many are unable to withstand this depressing time of the year and must inevitably succumb unless they take a proper care of their health. If you are physically weak NOW is the time to fortify yourself. Wealth may be yours, but without health you will be miserable.

A well beggar has a better time of it any day than a sick king.

I have for fourteen years made a special study of these CHRONIC conditions and have perfected methods that will positively cure. Do not be deceived or be misled into thinking you can afford to prolong your suffering and misery, for what is a few dollars to be compared with health?

OTHERS TREAT, I CURE

I am making this special offer until Aug. 1st to enable the thousands of sufferers to regain their health and to prove to you that the best is always the cheapest, and my terms are always reasonable considering the fact that when I accept a case I CURE.

I know that success and happiness depend on body and brain vitality. The lack of force is always due to functional decline, to a diseased condition of one or more of the organs of the body, or to a devitalized nervous system. The man who is not right physically and mentally and neglects himself not only limits his future prospects, but is using up the physical capital he has already possessed.

Every man who does less than he should do at his desk, in the shop or on the farm is weak in some way. I have found that the man who cannot accomplish all he expects or hopes for is often the silent sufferer from some hidden disease that affects one or more of the important nerve centers of the body.

These neglected or unknown conditions are usually diseases of the pelvic organs, which reflexly act on the organs of digestion, of elimination and the nervous system, which in turn has its influence on the brain. I have made a special study of the nervous system and have perfected methods that will CURE Pelvic Diseases. I will give you a searching and thorough examination and explain to you the true nature of your trouble.

EXAMINATION—My facilities for examination are unexcelled. I learn the exact condition of the rectum, the bladder and every organ of the genito-urinary system. This in itself is of the highest importance, inasmuch as a broken down nervous system and many or most of the troubles of the **STOMACH, LIVER, KIDNEY,** etc., are reflex, and are the direct results of some **PELVIC LESION** or **DISEASE.**

NERVOUS BREAKDOWN and nearly all nervous diseases are the direct result of chronic or imperfectly treated **PELVIC DISEASES,** such as **VARICOCELE, PILES, FISTULA, STRICTURE,** etc. I not only remove the cause, but my many years of experience in the treatment of nervous and pelvic diseases enable me by my special methods to revitalize the entire nervous system and to restore to perfect health nearly all sufferers from **NERVOUS BREAKDOWN** and **VITAL WEAKNESS.**

BLOOD POISON—I use only the most advanced methods in the treatment of blood poison and kindred diseases.

PROSTATIC ENLARGEMENT—This may result from a number of causes. The constant jarring and vibration of trains and trolley cars are a very potent cause. Bicycle riding and the use of riding implements on the farm are factors in producing this disease. In fact, the causes are so many and varied that fully 75 per cent. of all adults are afflicted to a greater or lesser extent by this disease. The disease is so little understood, and as one of the symptoms is a pain in the back, it is usually called kidney trouble and treated with local applications or sedatives, which do no possible good whatever. I reduce the enlargement, and have been able to cure about 90 per cent. of all cases.

VARICOCELE—I cure Varicocele in a few days' or weeks' time without the use of the knife.

STRICTURE—I readily remove stricture by my dissolvent method without the use of instruments.

RUPTURE, PILES, FISTULA, etc., cured without detention from business and without the use of the knife.

If you live out of town, wire or write on what train you will arrive and I will arrange my engagements so that I can see you at once.

South Bend Club in Need of Town to Support Game

Plucky Players Work Hard and Get Little Encouragement from the Baseball Public.

South Bend ball players who constitute the team that is now leading in the Central league race ought to be located in some live town where they would get the support that the brand of ball they are playing merits.

Most ardent Fort Wayne patrons who were compelled to swallow a bitter pill after the initial clash of the two clubs must acknowledge that Eddie Wheeler has a troupe that is always up and going and that usually plays to stands so near empty that the gate receipts hold out no encouragement.

This club has had its share of hard luck, but has continued to win under the most trying conditions and for what? Just to go out to Springbrook and give high-class baseball performances to crowds too small to mob an umpire. Trouble with Eddie Coffey and Midge Craven, the fact that Elmer Moffitt went to the bad, that Pat Lindsay had a sore arm that kept him out of the game a long time, that Ben Koehler was injured and out of the running for ten days and a dozen other things have transpired to make the going tough for the crew, but ill luck has not stopped the Benders in their rattling race for the flag and there are not enough real live baseball fans in the town to make playing of this kind profitable.

South Bend will probably say this is none of Fort Wayne's business, but it is just the same. Fort Wayne made a jump from Evansville with a chance to wrest first place from the Benders and drew $68.75 for its share of the gate receipts. This didn't pay the railroad fare of the club. Wheeler and Annis have excellent newspaper support in their home town which is accounted for by the fact that people probably read the games in print instead of going to see them. The population is big enough to draw profitable crowds from but the people will not turn out.

A hundred excuses are offered for this. In the first place Dr. Carson says that too many people go to the lakes on Sundays. Another excuse is that there is a big foreign population, but whatever is the matter South Bend has shown that it is not deserving of the kind of baseball that is being served up there. Some of these observations are, of course, occasioned by a little matinee affair that took place there yesterday in which the Benders splashed five tallies into the seventh round and obliterated all evidence of a prospective victory that was almost in full bloom, but this very rally proves that the Bronchos ought to be in a live town.

Grover Reddin, who has been holding his own on the whole trip, kicked into the opening fray with two doubles and a single and scored one of the runs. He started a rally with two down in the first by banging a fence board with a double and Young stopped a shoot with his right hip and Gainer ambled. Manda hit and scored two men, sending Gainer to third and he scored when Manda tried for second on a steal.

Buck Connors scored Bob Wells in the first round with a single after the catcher had drawn a base on balls and reached second on an out. Fort Wayne added one in the first half of the fifth when Burke got a life on McCarthy's failure to handle an easy chance, went to third on Reddin's crack and scored because Wheeler let the throw get past him when the ball was returned from the outfield.

Teddy Kroy picked off a single in the second half, and after McCarthy had skied to Blount Carey beat out an infield roller. Corbitt was hit by a pitched ball and the sacks were filled. Wells sent in two men with a hit and then Miller was hooked in favor of Alberts. Justice bobbled on Wheeler's offering and Alberts cut loose with a wild heave and Welchonce's sacrifice fly scored another run.

Kept on Bench Too Long

The present way of handling pitchers, the way of breaking in young pitchers—is all wrong, in the opinion of experts. It is now the invariable custom, when a major league team secures a junior wonder from the bushes, to set him down upon the bench and tell him to stop, look and listen. He is supposed to pitch a little before the game, and then watch the veterans putting them over, and, incidentally, to learn all he can about the various batsmen and the inside workings of fast company. Then, some day, when a pitcher has had the stuffing kicked out of him, the youngster goes in from the bench and looks like a desiccated lobster. Theoretically, of course, this system ought to be all right. The boy is going to school, as it were, and receiving the instruction to fit him for his business career. But as a matter of fact and common sense, how about it?

The young pitcher comes up from the brushwood with a sense of sublime confidence and an unlimited stock of nerve. He thinks he must be all-fired good, or the big team wouldn't have paid so much money for him. He knows that if he could go right in there and face those heavy hitters, he'd make them look like little monkeys but he doesn't get the chance. By the time he has been under instructions for a week or two, he has lost his confidence. He has had it impressed upon him that he is only a fresh kid and lucky to be alive. He has had the merits of his natural style criticised and reviled; he has been shown a lot of stunts, with the best intentions, but without the least effect.

Anson used to take them green from the train. "Good morning, Mr. Anson. I'm Hurlby, the new pitcher." "Umph. Umph, huh. When did you get in?" "Why just ten minutes ago, Mr. Anson." "Um huh. Um huh. Well, young man, go eat a good steak, and get out to the ball park before 2:30. You pitch this afternoon."

And the greenhorn would go in and make the blamest jassacks imaginable out of the mighty sluggers. Why? Because he came up fresh, strong, full of confidence. He was chestily stuck on himself, and his nerve helped him along. The other fellows were scared, not the kid. They took it for granted the boy must be a demon or he wouldn't be sent in bloodraw from the bushes. He had new stuff and backwoods shoots; he may have been crude, but a wise old catcher would be helping him on and the Old Man would be yelling, "Haw, haw, go to it, boy—haw, haw! Look at the poor mutts trying to hit that curve!" And in that way Anson made great pitchers.

Take 'em as they get off the train. Feed them, wash their faces—and ram 'em into the uniform. Send 'em straight in that very afternoon. If the boys have the stuff they will show it instantly, and it will be the opposing batsmen who will be attacked with stage fright, not the new kids. And if this dope is not correct, study the old records and note how the big stars broke in.

IN THE SPOTLIGHT

With perfect support Olmstead held Lincoln to two hits and Jack Hendricks' Denver club won.

Earl Yingling held Kansas City without a run until the ninth inning and won his game for Toledo.

Tom Railing pitched an eleven-inning game for Battle Creek and beat Kalamazoo.

Pitcher Leroy, who was driven from the box at Indianapolis on Tuesday, came back strong and pitched a no-hit game for St. Paul yesterday and won it.

Cantwell was knocked out of the box by Columbus in the last game of the Milwaukee series. Liebhardt allowed four hits and did not give a run.

Gaspar, Rowan and Benton tried to steady the Cincinnati fielders, but they kicked eight bobbles into the game with the Pirates and all of them were costly. Pittsburg took the game, 8 to 4.

Elberfeld chucked a two-base hit into the eighth inning of the game between Washington and the Athletics and this with Conroy's single, a base on balls to Gessler and an error netted four runs and a victory.

Foxen held New York safe for Philadelphia until the sixth inning when half a dozen bingles and a base on balls sent him to cover after six runs had been tabbed by the Giants. Ten hits made off Wiltse were so scattered that they were not productive.

Pitcher Mordecai Brown passed Roger Bresnahan with two on and two gone in the fifth inning of the game at St. Louis with the Cubs and Mike Mowery started a batting rally with a single and eight runs were scored before the last of the Cardinals was disposed of in the inning. The rally won the game. Richie and Pfeffer were sent in and stopped the batting.

Engle, Speaker and Smith contributed a wild throw apiece in the eighth inning of the second game between New York and Boston and the Highlanders tied the score and then tabbed three runs in the eleventh and won. Hughes held the Red Sox safe after a bad start in the first game and New York made a strong bid for the game.

BERT ANNIS THINKS TRANSFER OUGHT TO HELP

Gives Out Significant Interview About His Stag Troupe.

"It's a funny thing to me, I have gone ahead and secured one of the highest priced teams in the league and still we are not able right now to keep in the first division. I am just about tired of it. If players of experience can't keep Grand Rapids up in line I might as well go out and get youngsters. I could at least save money on the salary list.

"In South Bend Eddie Wheeler has a club of youngsters who are fighting every moment. The team has made a big hit with South Bend and would be a still bigger hit here. Although I own a half interest in the South Bend team my heart is in Grand Rapids and I want a team such as Wheeler has."

Why not transfer South Bend to Grand Rapids and send the Stag outfit to South Bend?

Bert Annis is in absolute control of both teams and the interview at the top of the column was given by him to the Grand Rapids Press. It may or may not be significant but it certainly offers an excellent suggestion.

With Eddie Wheeler, himself, a Grand Rapids boy who has demonstrated that he is a bustling and capable manager, behind a club of bustling ball players and Bert Annis to supply all the financial backing that is needed Grand Rapids could be made one of the best towns in the circuit.

There is probably not a director in the league who would not subscribe to a movement to switch the two clubs. It's a good, sensible sort of a proposition. Grand Rapids with a winning club would draw well and seven other clubs in the league would share the benefit with Mr. Annis. South Bend will not draw well with any kind of a club and there is no good business reason why Bert Annis and Wheeler might not shift the clubs.

Joe Raidy has too many old men on his roster and it has been pretty conclusively shown that players who can not make good in the Class A clubs, or rather who have outlived their usefulness there, are not fast enough for the Central league.

WOLGAST AND PACKY TO FIGHT.

New Orleans, July 28.—Tommy Walsh, match-maker of the New Orleans Athletic club, who has offered a purse of $10,000 for a twenty-round bout in this city between Ad Wolgast and Packy McFarland on Labor Day announced today that he has received acceptances of the terms from both fighters but with important reservations. The opinion is expressed here that Promoter Walsh will not be able to get the men to agree on the weight.

SUFFERS FRACTURED LEG.

Thomas Screen Painfully Hurt in Motorcycle Accident.

Thomas Screen, employed at the Brookside greenhouses, suffered a fracture of the left leg Wednesday evening in a motorcycle accident near the Standard Oil company's station west of the city. Lights from an approaching auto blinded Screen, and in turning from the road to avoid the machine Screen collided with a buggy and was thrown from his motorcycle. The injured man was removed to the home of a sister, Mrs. William Miller, east of the city.

DUDIE ARCHDALE A WINNER IN BIG EVENT

Takes $10,000 Stake in the Grand Circuit at Kalamazoo.

Kalamazoo, Mich., July 28.—Dudie Archdale, the favorite, had comparatively little trouble in winning the $10,000 Paper Mills stake for 2:11 class trotters, the classic of the Kalamazoo Grand Circuit race meet, in which a field of fourteen horses contested.

Ed Geers, the veteran, who was unable to drive in Kalamazoo this week, because of the injuries he received at Grand Rapids, sat in the timers' stand and watched his entry win the rich prize. C. F. G. Jones, who drove Dudie Archdale to victory, was cheered at the finish. He was carried in a floral horseshoe to a spot in front of the timers' stand, where he was given the D. D. Streeter cup, a handsome silver trophy valued at $500. This cup is given the winner of this event as a memorial by the heirs of the late D. D. Streeter of Kalamazoo, the noted horse breeder, who died within the year.

A feature of another kind was the conclusion of the 2:17 pace left over from Tuesday. Owings, driver of The Philistine, who had been taken down after the first heat Tuesday afternoon, was allowed to resume his place. Then Snow drove Hallie Lou to a victory. The judges declared all bets off and Owings promptly drew Jordan, his entry, for the first race of the day. Every favorite was returned a winner. The summaries:

WALSH LIKES WORK OF THE CUBAN STARS

Spit Ball King Puts in His Time Looking at the Game.

Ed Walsh, king of the spit ballers, and who stirred up such a muss in Ne wYork where he accused the Highlanders of having an arrangement whereby the catchers' signals were tipped off to the batters, put in yesterday afternoon watching the Cuban Stars work against the Lelands at Chicago and he was highly pleased with the brand of ball the aggregation put up.

The pitching, he said, was exceptionally good and the all round work up to the standard of the best major league clubs in the country. Manager Mart Cleary thinks his Shamrocks can give the dusky ball players an argument and has made arrangements to put his best team in the field tomorrow afternoon when the game will be called at 3:30 o'clock.

These Cubans have excited much comment over the country by their thorough knowledge of base ball and the aptness they display in learning the finer points of the game. This has been the means of getting the club some good booking and it is a rare thing that they visit towns smaller than Toledo. There was no chance to get into Toledo for tomorrow so Fort Wayne was picked as the best town to put in the off day.

The Shamrocks have been highly recommended by the Chicago semi-professional managers and to this fact the date is attributed. The Shamrock prices will prevail in the stands and already considerable curiosity has been displayed by base ball fans here to see a bunch of Cubans play the game.

DAYTON IS GETTING TOO CLOSE FOR COMFORT

Vets Making It Crowded Around Second—The Central League.

By copping an eleven inning victory from Grand Rapids while Fort Wayne was being trounced by South Bend, Dayton is making it a bit crowded about second place in the standing and if Punch Knoll's crew continues on that lively sprint it will have to be reckoned with in the finish.

The club has taken a remarkable spurt in the last few weeks and the manager has filled in his team with a lot of hustlers who are working all the time to win and their work has shown they are dangerous. Jimmy Wacker was in part of the game yesterday, but gave way to Neuschafer as he could not puzzle the Stags.

Two runs were necessary to a tie in the opening half of the ninth and Grand Rapids felt pretty comfortable about it, but the Soldiers dug right in and rapped off a couple of counters, then hooked one in the first of the eleventh that pickled the game.

In the meantime Zanesville's few patrons were chasing Umpire Walsh, who ruled that a swat by Kenworthy that would have tied the Evansville score, was a foul. Veasey held the Evas to two swats, but one of them was a double annexed by Buck Sterzer in the first half of the ninth and he scored the only run on a couple of infield outs. Bill Hillinger was not strong against Sterzer and Prysick, a new infielder, was sent in for him in the ninth, but failed to deliver. Sterzer allowed only three hits in the game.

The crippled Tots took the first game of a double header from Wheeling and lost in the afterpiece. Doak held the Tots to two hits in the second game while half a dozen were being made off Cy Alberts.

A FEW SHORT WEEKS.

Mr. J. S. Bartell, Edwardsville, Ill., writes: "A few months ago my kidneys became congested. I had severe backache and pain across the kidneys and hips. Foley Kidney Pills promptly cured my backache and corrected the action of my kidneys. This was brought about after my using them for only a few short weeks and I can cheerfully recommend them." Sporting News in Tablets

Zanesville and Wheeling are putting up an awful kick about the work of Umpire Walsh.

Bob Bescher is still leading the National league in stolen bases with 37 to his credit. George Paskert is second with 36.

Evansville is without the services of Forest Cady this trip. The catcher is at home with a sore finger and Dick Grefe will be depended upon to do all the catching.

Brooklyn and the White Sox are both said to be after Tex Covington and Grant is holding him for the best price. Cady is also said to be attracting attention.

The first season that John Somerlott worked at Terre Haute the fans implored the management to dispose of him and now he is to join the Washington club at the end of the series.

Teddy Price, who played with and managed the Wheeling team of the Central league and who has been at the head of the Enid club in Oklahoma, has signed to manage the Kewanee, Ill., team.

Zanesville Courier: "One can easily understand why South Bend is willing to trade Coffey and Craven for Welschonce, but it is difficult to determine why Grand Rapids was willing to trade Walschonce for Coffey and Craven."

President Chivington, of the American association, has suspended Tony James, of the Kansas City ball club, for three days for shoving Umpire Bush on the ball field at Columbus on Saturday.

The Times-Recorder is authority for the statement that Eddie Wheeler offered $500 and Buck Connors for Hugo Swarling. It goes further and says that Montgomery wants $700 and adds that Hugo is so well satisfied at Zanesville that he does not want to go to a winning club.

Zanesville Signal: Manager Burke of the Billikins, tells a funny story about Rube Waddell. The Rube and Jimmy were both members of the Minneapolis club some years ago. Waddell had just defeated his opponents in a seventeen-inning game when the Millers' boss asked Rube if he could do ironman stunt and pitch the second game that afternoon. According to Jimmy's story Waddell declared he could "if he had time to warm up before play was called."

NEW ASYLUM IS A MODEL.

Southern Hospital for Insane Will Soon Be Opened.

Indianapolis, July 28.—The trustees of the new Southern Hospital for the Insane, at Madison, have informed Governor Marshall that they expect to throw open the doors of the institution for the reception of the inmates Aug. 1. The new institution has been completed at a cost of approximately $1,500,000 and is looked upon as a model.

Virtually all the furniture for the hospital has been supplied by the state reformatory at Jeffersonville.

When the institution is opened it will provide room for an additional one thousand patients to be cared for by the state. Many of these will be taken from the southern hospital at Evansville, the central in this city and the eastern at Richmond.

THE BEER RAN APLENTY.

Schlitz Brewing Wagon in Runaway and Bottles Fall to Street.

A runaway that occurred on Broadway Wednesday afternoon about 4:30 o'clock resulted in several cases of beer falling to the street and spilling over the distance of a square or so. It was a Schlitz Brewing company's horse and wagon, driven by George Helt, that figured in the runaway, the horse becoming frightened while coming north on Broadway as it approached West Creighton avenue. A wheel of the wagon caught in the street car track, precipitating the loaded cases of beer to the street and causing numerous sighs among those who witnessed the accident. There was no other damage done.

REAL ARISTOCRATS IN WASHINGTON SCARCE

New Social Arbiter Holds the Number Down to Twenty-eight.

Washington, D. C., July 28.—There are only twenty-eight persons in Washington society who properly may be regarded as aristocratic, according to a newly arisen arbiter of elegance and fashion, C. W. Delyon Nicholls, of Baltimore.

As a result a good many of those not included in the select number are wrought up over the social blue ribbon awards contained in Mr. Nicholls' "ultra fashionable peerage of America," which he is preparing to publish, and advance sheets of which have been given publicity.

Mr. Nicholls is a strict and unsparing censor of the fashionable world. Ancestors alone count with him. If you have no ancestors who can measure up to the standard of aristocracy you don't get into his catalog of the ultra fashionable—that's all.

Mrs. Levi Z. Leiter is named as one of the twenty-eight elect in Washington society and so is Miss Katherine Elkins, daughter of the senator from West Virginia. Miss Elkins has ancestors, but her father and mother have no ancestors, for Mr. Nicholls does not include the senator and Mrs. Elkins in the blue ribbon list.

Here Are the Only Aristocrats.

This is Mr. Nicholls' roll of the ultra fashionables of Washington:

Senator G. P. Wetmore, Mrs. G. P. Wetmore, the Misses Wetmore, W. S. K. Wetmore, Roger Wetmore, Pierre Lorillard, Mrs. Richard Townsend, Mrs. Peter Goelet Gerry, Perry Belmont, Mrs. Perry Belmont, Chauncey M. Depew, Mrs. Chauncey M. Depew, James W. Wadsworth, Mrs. James W. Wadsworth, Mrs. Levi Z. Leiter, Miss Margaret Cameron, Miss Catherine Cameron, Beekman Winthrop, Mrs. Beekman Winthrop, Hamilton Fish, the Misses Fish, Beekman Lorillard, Mrs. Beekman Lorillard, Miss Katherine Elkins, Nicholas Longworth, Mrs. Nicholas Longworth.

Who C. W. Delyon Nicholls Is.

"Who is this C. W. Delyon Nicholls anyway?" exclaims one Washington society editor.

Well, according to C. W. Delyon, he is "descended from a triple line of ancestry, from the Chevalier Serg. Francis Nicholls, brother of Sir Robert Nicholls, the first English governor of New York, and on the maternal side of the house through a three-fold pedigree from John Delyon, the first earl of Stratmore and Kingborne, who married Lady Jane Stuart."

Then he is governor general of the national society of scions of colonial cavaliers. He has figured prominently in Baltimore society for a number of years.

INTEREST RATES ON MUNICIPAL DEBTS INCREASING

Important Disclosure Made by the Federal Census Bureau.

Washington, July 28.—Based upon its investigations into the question of municipal indebtedness made for the year 1908, the census bureau has issued a statement showing a gradual increase in the rates of interest paid by cities on their funded indebtedness. According to this showing the average rate was 3.85 per cent in 1906, 3.89 in 1907 and 3.92 in 1908. These figures are on face values and admittedly do not represent the absolute rate, as on the $187,083,286 worth of bonds sold in 1908 an aggregate premium of $5,325,651 and an aggregate discount of $484,456 was paid. Only eleven cities are represented as having made sales at a discount.

As indicated by the statement the cities of more than 300,000 population with the best credit rating were: Detroit, 3.37 per cent; Boston, 3.64 per cent, and Philadelphia, 3.79 per cent. The best cities of between 100,000 and 300,000 were Indianapolis, 3.49 per cent; Cambridge, 3.56 per cent; Worcester, 3.69, and Fall River, 3.79.

Cities of more than 300,000 with the highest net rates were: San Francisco, 4.20 per cent, and New York, 4.19 per cent. Other cities of from 100,000 to 300,000 with the highest net rates were: Los Angeles, 4.49 per cent; Memphis, 4.34 per cent, and Jersey City and Omaha, 4.27 per cent each.

The cities with the largest per capita payments of interest on city debt were: Boston, $6.67; New York, $6.36 and Cincinnati, $4.76.

GOES TO GRANDFATHER'S FUNERAL.

A message this morning brought to S. E. East, of the Pennsylvania blacksmith shop, news of the death of his grandfather at Lima, Ohio. Mr. East left at noon today for that city to attend the funeral.

WILL VISIT BOYHOOD SCENES.

Mr. Kraft has been employed at the Wabash shops for over thirty years and in that time has taken only one vacation of importance. He has relatives living in New York whom he will visit.

CONCERT ATTRACTIVE FEATURE.

The concert at Hayden park by the Electro-Technic band last night attracted a big crowd, in fact at some time during the performance nearly every person in that part of the city listened to a selection or two and many remained throughout the entire program. This was the third concert of the series.

SHOPMEN TO GO VISITING.

Tomorrow H. C. D. Korte, a carpenter at the Pennsylvania shops, will leave for Buffalo on a ten days' vacation. E. Bill, a truck builder at the shops, and his wife will go to Berne, Ind., Saturday, to spend a week with relatives. F. A. FIREMAN VERY SICK.

Harry F. Tigar, of 1025 Crescent avenue, a fireman on the Grand Rapids and Indiana road, is very ill at the hospital and fears are entertained that the malady will prove fatal. The young man was attacked by appendicitis several days ago and a surgical operation was delayed until it is now feared it will not have the desired effect. Harry Tigar is a son of William H. Tigar, for many years chief dispatcher of the Pennsylvania, but now on the retired list because of failing health.

TRYING CORK FLOORS.

The Pennsylvania is having cork floors put into some of its steel passenger cars as an experiment, the inventor claiming that the cork will wear well and be practically noiseless. Cork slabs, fourteen inches in thickness, are placed in a huge hydraulic press, and the particles are pressed together and packed, until the 14 inches are compressed into less than half an inch. The blocks are about a foot square, and the floor is first covered with glue and the blocks placed on this. A border of different colored blocks gives the floor a pleasing effect that relieves the monotony.

TEARING UP DEPOT PLATFORM.

Workmen are engaged today in tearing up the north tracks and the depot platform of the Pennsylvania and this afternoon or early tomorrow the driving of piles for that track will be completed and the clam shell unloader will commence dumping sand there. The other unloader has commenced at Fairfield avenue to raise this track. On the Wabash side elevation work is progressing rapidly also. The old depot is being raised and will reach the required height tomorrow, when the work of putting a foundation under it will be taken up. A small force is at work making the excavation for the Calhoun street subway, but the force is to be increased as soon as the men can be secured, when the work will be pushed along more rapidly.

INDUSTRIAL NOTES.

Wabash freight engine 2041, from the Detroit division, left the shops today.

A car load of wheels on axles for the Marion Steam Shovel company left the Bass works this morning.

Oscar Ankenbruck resumed his duties in the Pennsylvania offices this morning after a week's vacation trip in the east.

R. T. Koch and E. E. Hartzell, G. R. & I. firemen, are taking a vacation. The first named is at Rome City and Mr. Hartzell is visiting his folks in Pennsylvania.

John Ream, a Wabash freight conductor, sustained painful injuries Tuesday when he fell from a car at New Haven. He is now at his home in Peru.

The Boilermakers' union held a meeting last night and considered six applications for membership and transacted some other business, included being the part the union will take in the Labor day celebration.

Ed Ehinger, foreman of the yard labor gang at the Wabash shops, will return home tomorrow. He has been in Kansas and Missouri for ten days visiting relatives and was accompanied by his wife and father.

Machinist John O. Bryant has returned from Plymouth, where he spent a week with friends. He resumed work at the Pennsylvania shops this morning.

A. S. Courtney expects to be able to resume the duties of assistant foreman of the Pennsylvania shops Monday. He has been sick several days, but is improving and is able to walk about the house.

Tomorrow Gang Foreman Paul A. Meyer, of the Pennsylvania erecting shop, with his wife and two daughters will go to Chicago to visit friends over Sunday.

The Wabash will handle the Ringling Bros.' circus trains—eighty-four cars—August 4 to 6 inclusive, when exhibitions will be given at Lafayette and Decatur, Ill. The Buffalo Bill show will also be handled this week by the Wabash from Logansport to Lafayette.

The Queen and Crescent officials and the engineers employed on that line have reached an amicable adjustment of their differences on the wage and work conditions affecting the engineers. Both parties conceded points, but the engineers got a little the best of the argument.

Fred Meyer, of the Pennsylvania flue shop and the second baseman of the Pennsy league team, resumed work this morning and will probably be able to play ball Saturday afternoon. He sustained an injury last Saturday which put him out of commission several days.

FEELS HIS DISTRICT SAFE.

Supt. Shirey Has Full Confidence in Legislative Candidates.

"I believe that my district will furnish the next legislature a set of senators and representatives that will be practically unanimous for the retention of the county option law. I have thoroughly gone over the situation and find that in some counties both the democratic and republican candidates are in favor of anti-saloon interests, and where the county is strongly democratic or republican, the leading candidate is also in our favor."

Rev. N. C. Shirey, superintendent of the local district of the Anti-Saloon League, thus expressed his sentiments today when asked concerning the attitude of his district at the next legislature. Rev. Shirey believes that the men who are most likely to be the district's representatives in the legislature will also favor the adoption of the joint resolution calling for a vote on the matter of state-wide prohibition.

On other matters Rev. Shirey is very reticent, however, and says nothing as to the probable course of the league in the coming campaign.

Russell Krock, a young lad living at 618 Mechanic street, fell off a fence while playing yesterday afternoon and dislocated his left elbow. The Krock family recently moved to the city from New Haven.

FEATHERED "JACK BINNS" SENDS WIRELESS MESSAGES.

Mr. Joseph Finley Tells of Wonderful Parrot He Found in Hartz Mountains—Began by Imitating Finger Taps on Table—Then Learned to Tap the Operator's Key and Send Messages Out from the Adriatic.

PURSER McELROY AND HIS "WIRELESS PARROT"

MR. JOSEPH FINLEY

New York, July 28.—Joseph Finley, at his home, No. 494 Halsey street, Brooklyn, today told the story of his capture of the wonderful parrot that will arrive here some time this week and which is now sending wireless messages with unerring aim all over the Atlantic. Mr. Finley arrived on the White Star line steamship Cedric with two friends.

"I caught my parrot in the Hartz mountains," said Mr. Finley. "He had escaped from some zoological garden in Germany, undoubtedly, but as I could not discover the owner I kept the bird and found, after a few days, that he would imitate the taps I made on the table with my fingers, a habit I have. Later, in London, I met Mr. McElroy, who is the purser of the Adriatic. I gave him the parrot and, telling him the trick of the parrot of imitating the tapping of my fingers, it was found that he would tap the wireless key on the Adriatic just as regularly and as precisely as he did the table taps.

"As a result of some experiments, the parrot was found quite competent to send wireless messages without the regular operator touching the key, the bird simply following each tap of the operator's finger on the table with a tap on the key. He was quite precise in his imitation of the dots and dashes, and I was highly gratified in getting a wireless message on the Cedric, which was sent 'Via McElroy's Parrot,' as the messages stated."

According to Mr. Finley the parrot he caught will become a second Jack Binns if he keeps on at the rate that he is now going. The taps on the table of the Adriatic's wireless operator's fingers were instantly copied by the "wireless parrot" and repeated on the key controlling the sending of the wireless dispatches by the bird striking the key with its foot.

Advance news of the Adriatic may be expected today or tomorrow, provided, of course, that Purser McElroy's parrot is in his usual good form.

ATTACKS PULLMAN RATES.

Kansas Commission Files Complaint With Interstate Board.

Washington, July 28.—An attack was made yesterday before the interstate commerce commission by the railroad commission of Kansas upon the rates charged by the Pullman company for upper berths in sleeping cars. The allegation is made that the charges for upper berths are unreasonable and excessive as compared with the charges for lower berths. The commission is requested to fix a rate of fare for upper berths on the basis of half the lower berth rate.

The birds were almost all in the barn here by 8:30 o'clock Wednesday morning, having flown the forty-miles distance in exceptionally good time for young pigeons. Mr. Minser is training the birds for races this fall.

STATE BOARD GOING AFTER HOME IN AMHERST

Had No Right to Place Coats in State of Indiana.

Secretary Amos W. Butler, of the Indiana board of charities and corrections, has just finished an investigation which revealed that the Light and Hope institution at Amherst, O., which placed Charlies Coats in the hands of Moses Richer, who is charged with his murder, has no license and is amenable under an act passed in 1909.

Under this act no person or institution has the right to secure homes in the state for infants without having first filed an application and secured a license under a $10,000 bond to hold the state of Indiana safe from any damages that may accrue.

The fine fixed under the act is $300 and while in this instance no particular good can come out of the investigation it will serve to show that the state must know where children are being placed so that they can be watched by the county and state authorities.

Had it been known by the state board that Coats was in the custody of Moses Richer he would have been properly looked after and his life might have been saved as the fact that he was subjected to cruelties would have justified Mr. Butler in ordering his return to the Amherst home.

NEW ACT ON AIRDOME BILL.

The La Dells in Magic at the Summer Theater Last Night.

The fifth week of vaudeville at the Airdome is drawing large crowds every night. The style and class of this week's bill is appreciated by the audiences who are quick to realize that they are getting really meritorious entertainment for a small sum of admission. The numbers on this week's bill are the Kellys in a stock whip act, the Dohertys in a very good singing act and the La Dells in magic. Frank Jones in illustrated songs and moving pictures complete the bill.

Two shows are given every evening, at 8 and 9:15.

THE MARKETS

GRAIN AND PROVISIONS.

Chicago Market.

Chicago, Ill., July 28.—Authoritative declarations that threshing returns of winter wheat are satisfactory as a whole and that the yield of spring wheat so far has been as favorable as could be expected considering climatic conditions during the earlier life of the plant had the effect of making the tone of the market heavy today. Trade was slow. Pit speculators were selling, and there was only scattered commission buying. Closing of flour mills because of accumulation of unsold stock had a depressing tendency. Reports of improved weather in France and Argentina were also considered bearish factors. Prices opened ⅜c lower to ½c higher. The latter for July. September started unchanged to a shade up at $1.04⅛ to $1.04¼ and declined to $1.03⅝.

Further weakness was manifested, the result largely of primary receipts being heavy. Indications for a smaller run of wheat from now on led to an upward turn which, however, was only temporary. The close was steady with September at $1.03⅝ to $1.03¾, a net loss of ⅝c to 1⅛@1⅜c.

Cooler weather and rains in a large portion of the corn belt weakened quotation for that grain. Official predictions were that the heat would be gradually broken in the trans-Mississippi region during the next thirty-six hours. The market opened a shade to ¾c down, with September at 65⅛@65¾c, a loss of ⅝@⅞c. There was a further decline to 64⅝c.

There was quite a rush to unload longs on reports of rains and cooler weather west. The close, however, was steady at 63½c to 63⅝c, a net decline of 2⅛c to 2¼c.

Hedging sales continued to make oats weak. September started ⅛@¼c to ¼@⅜c off at 38⅝c to 38½c, touched 38½@38⅝c and fell to 38⅛c.

Provisions dropped because of a large run of hogs. Opening figures were unchanged to 22½c down, the September option selling at $21.95 to $22.00 for pork; $11.82½ to $11.85 for lard, and $11.62½ for ribs. Additional losses were suffered.

STOCKS AND BONDS.

The Day on Wall Street.

New York, July 28.—Prices of stocks bounded upward again with the opening of the market today, gains running from 1 to 2 points over night for practically all of the active issues. The rise in Denver & Rio Grande preferred reached 2½ points and Canadian Pacific 2¼. Very heavy blocks changed hands in United States Steel, Union Pacific and Amalgamated Copper and the quotations for those stocks showed a spread of a substantial fraction.

The extent of the opening advance coming after the sharp rise of yesterday invited heavy realizing sales. The reaction was slight and enormous buying orders flooded into the market at rising prices. St. Louis Southwestern preferred jumped 4½, Rock Island preferred 3½, Sloss-Sheffield Steel 3¾, Southern Pacific, Consolidated Gas and Westinghouse Electric 3, Minneapolis, St. Paul & Sault Ste Marie and Amalgamated Copper 2¾, United States Steel 2⅝, and Union Pacific, Reading, Chesapeake & Ohio, Great Northern preferred, Atchison, Norfolk & Western, American Car and National Lead 2 to 2½ points.

After occasional pauses the market gathered force for fresh advances. Reports that embarrassed holdings had been taken over by syndicates alarmed the shorts. The demand was large, both for home and foreign accounts. Amalgamated Copper had risen 4¼ before noon, Southern Pacific 4, Union Pacific, Louisville & Nashville, Reading and American Locomotive 3½ and Great Northern preferred, St. Paul, Atchison, Missouri Pacific, Minneapolis, St. Paul & Sault Ste Marie, St. Louis Southwestern and United Steel 3 points or more. Bonds were firm.

The market more than held its gain during the noon hour on a diminished volume of business. Canadian Pacific increased its gain to 4¼ over yesterday's close and Chesapeake & Ohio was up 4 points, while Colorado & Southern showed an advance of 6 points. American Smelting, Atlantic Coast Line and Great Northern Ore Certificates advanced 3 points each, Sloss-Sheffield Steel 4¾ and United States Rubber 4¼. There were some recessions from the high level at 1 o'clock.

The demand for stocks died down and prices slipped back 1 to 1¼ on dull trading. Offerings almost ceased at the lower prices. The advance in Canadian Pacific was extended to 5¼.

The market closed strong and quiet. Prices rose to the best again in the final hour after a period of dullness. Union Pacific then rose 4, General Electric 3½ and Illinois Central 3¼.

Lackawanna advanced 10 points. There was a renewal of profit taking sales on the latest advance which was again absorbed at another advance.

FLIES FLEE FROM "FLY-FOE" FUMES.

Everyone knows that when Flies, Mosquitoes, etc., worry cows, the yield of milk is greatly reduced. They cause animals to lose flesh and vigor, thus rendering them more liable to acquire diseases. Every owner should give all possible comfort to his live-stock, by making them immune from Flies, Mosquitoes and vermin of every sort. This is easily accomplished by the use of Fly-Foe, and it is money in the pocket to spray it. Call and let us tell you about it. We guarantee it to do the work.
